

*The National Medical Series for Independent Study*

3rd edition

# pathology

Virginia A. LiVolsi  
Maria J. Merino  
John S. J. Brooks  
Scott H. Saul  
John E. Tomaszewski

- **Outline for course study and USMLE preparation**
- **500 Board-type questions with annotated answers**
- **Comprehensive exam**

3rd edition  
**pathology**

EDITORS

**Virginia A. LiVolsi, M.D.**

*Professor of Pathology  
Department of Pathology  
and Laboratory Medicine  
University of Pennsylvania  
School of Medicine  
Director, Surgical Pathology Section  
Hospital of the University  
of Pennsylvania  
Philadelphia, Pennsylvania*

**Maria J. Merino, M.D.**

*Chief, Surgical Pathology  
Senior Investigator  
National Cancer Institute  
National Institutes of Health  
Bethesda, Maryland*

**John S.J. Brooks, M.D., MRCPath**

*Chairman, Department of Pathology  
Roswell Park Cancer Institute  
Vice Chairman, Department  
of Pathology  
State University of New York  
at Buffalo Medical School  
Buffalo, New York*

**Scott H. Saul, M.D.**

*Adjunct Associate Professor  
of Pathology  
Department of Pathology  
and Laboratory Medicine  
University of Pennsylvania  
School of Medicine  
Adjunct Associate Professor  
of Pathology  
Department of Pathology  
Jefferson Medical College  
Philadelphia, Pennsylvania  
Staff Pathologist  
Chester County Hospital  
West Chester, Pennsylvania*

**John E. Tomaszewski, M.D.**

*Associate Professor of Pathology  
Department of Pathology  
and Laboratory Medicine  
University of Pennsylvania  
School of Medicine  
Staff, Surgical Pathology Section  
Hospital of the University  
of Pennsylvania  
Philadelphia, Pennsylvania*

# Contents

Preface xi  
To the Reader xiii

<b>1</b>	<b>Inflammation</b>	<b>1</b>
	I. General features of inflammation	1
	II. Cells involved in inflammation	2
	III. Chemical mediators of inflammation	5
	IV. Inflammatory response	7
	V. Types of inflammation	10
	VI. Consequences of inflammation	12
<b>2</b>	<b>Special Diagnostic Techniques</b>	<b>21</b>
	I. Overview	21
	II. Cytology	21
	III. Immunohistochemistry	23
	IV. Techniques from molecular biology	26
	V. Electron microscopy	28
<b>3</b>	<b>Neoplasia</b>	<b>37</b>
	I. Introduction	37
	II. Mechanisms of carcinogenesis	39
	III. Characteristics of neoplasms	41
	IV. Immune host responses to malignant neoplasms	42
	V. The diagnosis of cancer	43
	VI. Clinical manifestations of cancer	44
<b>4</b>	<b>Environmental Pathology</b>	<b>49</b>
	I. Scope	49
	II. Physical injury	49
	III. Chemical injury	52
	IV. Tobacco, alcohol, and drug abuse	55
	V. Adverse effects of medicinal agents	57
	VI. Effects of air pollutants	58
<b>5</b>	<b>Nutritional Pathology</b>	<b>67</b>
	I. Introduction	67

- II. Overnutrition 67
- III. Undernutrition 67
- IV. Vitamins 68
- V. Essential trace elements 70

<b>6</b>	<b>Immunopathology</b>	<b>75</b>
	I. Introduction 75	
	II. Cells and other elements involved in the immune response 75	
	III. Immunologic mechanisms of tissue damage 81	
	IV. Autoimmune disease 84	
	V. Immunodeficiency disorders 87	
 <b>7</b>	 <b>Transplantation</b>	 <b>95</b>
	I. Basic immunologic mechanisms 95	
	II. Pathologic features common to solid organ allograft rejection 96	
	III. Organ-specific transplantation 96	
	IV. Complications of transplantation 101	
 <b>8</b>	 <b>Hematopoietic and Lymphatic Systems</b>	 <b>105</b>
	I. Disorders of red blood cells 105	
	II. Disorders of coagulation and hemostasis (hemorrhagic disorders) 109	
	III. Nonneoplastic white blood cell disorders 113	
	IV. Leukemia 113	
	V. Hodgkin's disease 117	
	VI. Non-Hodgkin's lymphomas 119	
	VII. Plasma cell disorders 125	
	VIII. Disorders affecting histiocytes (the monocyte–macrophage system) 126	
	IX. Benign lymphadenopathies of diverse etiologies 128	
	X. Disorders of the spleen 129	
 <b>9</b>	 <b>Heart</b>	 <b>137</b>
	I. Normal cardiac structure 137	
	II. Congestive heart failure 138	
	III. Ischemic heart disease 139	
	IV. Systemic hypertension 144	
	V. Inflammatory diseases of the heart 146	
	VI. Congenital heart disease 152	
	VII. Other clinically significant cardiac conditions 154	
 <b>10</b>	 <b>Vascular System</b>	 <b>163</b>
	I. Arteries 163	
	II. Veins 171	
	III. Lymphatics 172	
	IV. Tumors of the arteries, veins, and lymphatics 172	

<b>11</b>	<b>Lung</b>	<b>179</b>
	I. Normal anatomy and physiology of the lung	179
	II. Congenital pulmonary abnormalities	180
	III. Vascular disorders of the lung	181
	IV. Inflammatory lung disorders	182
	V. Chronic obstructive pulmonary disease	185
	VI. Interstitial lung disease	186
	VII. Miscellaneous pulmonary disorders	187
	VIII. Pulmonary neoplasms	188
	IX. Disorders of the pleura	191
 <b>12</b>	 <b>Mediastinum</b>	 <b>197</b>
	I. Normal anatomy	197
	II. Congenital abnormalities	197
	III. Inflammatory disorders	197
	IV. Tumors of the mediastinum	198
 <b>13</b>	 <b>Gastrointestinal Tract</b>	 <b>203</b>
	I. Esophagus	203
	II. Stomach	207
	III. Small bowel	214
	IV. Large bowel	217
	V. Inflammatory bowel diseases	225
	VI. Ischemic bowel disease	231
	VII. Anal canal	233
	VIII. Vermiform appendix	234
 <b>14</b>	 <b>Biliary Tract and Exocrine Pancreas</b>	 <b>243</b>
	I. Gallbladder	243
	II. Extrahepatic bile ducts	248
	III. Exocrine pancreas	251
 <b>15</b>	 <b>Liver</b>	 <b>265</b>
	I. Normal structure and function	265
	II. Structural anomalies	266
	III. Hyperbilirubinemia and cholestasis	267
	IV. Acute hepatitis	269
	V. Vascular hepatic disorders	276
	VI. Neonatal hepatitis and cholestasis (infantile obstructive cholangiopathy)	277
	VII. Reye's syndrome	279
	VIII. Chronic hepatitis	279
	IX. Other disorders associated with chronic liver disease	281
	X. Cirrhosis	285
	XI. Portal hypertension	287
	XII. Bacterial and parasitic liver infections	288
	XIII. Hepatic tumors	290

<b>16</b>	<b>Kidney and Urinary Tract</b>	<b>305</b>
	I. Normal anatomy and embryology 305	
	II. Congenital anomalies of the kidney 306	
	III. Medical nephropathology 308	
	IV. Tumors of the kidney 318	
	V. Disorders of the urinary tract 320	
 <b>17</b>	 <b>Male Reproductive System</b>	 <b>331</b>
	I. Testis, scrotum, and epididymis 331	
	II. Prostate gland 337	
	III. Penis 339	
 <b>18</b>	 <b>Female Reproductive System</b>	 <b>347</b>
	I. Conditions associated with decreased fertility 347	
	II. Conditions associated with fertility, pregnancy, and contraception 349	
	III. Infectious diseases 351	
	IV. Inflammatory and neoplastic uterine disorders 354	
	V. Tumors of the ovaries 359	
	VI. Tumors of the fallopian tubes 368	
	VII. Vulvar disorders 369	
	VIII. Vaginal disorders 370	
 <b>19</b>	 <b>Breast</b>	 <b>377</b>
	I. Normal anatomy and physiology 377	
	II. Congenital abnormalities 377	
	III. Inflammatory disorders 377	
	IV. Proliferative lesions 378	
	V. Benign neoplasms 378	
	VI. Malignant neoplasms 380	
 <b>20</b>	 <b>Endocrine System</b>	 <b>391</b>
	I. Introduction: general concepts 391	
	II. Hypothalamus and pituitary gland 391	
	III. Thyroid gland 393	
	IV. Parathyroid glands 398	
	V. Endocrine pancreas 400	
	VI. Adrenal glands 404	
	VII. Multiple endocrine neoplasia (MEN) syndromes 407	
 <b>21</b>	 <b>Nervous System</b>	 <b>413</b>
	I. Congenital abnormalities of the central nervous system 413	
	II. Vascular disorders of the central nervous system 414	
	III. Infections of the central nervous system 418	
	IV. Metabolic disorders affecting the central nervous system 422	
	V. Central nervous system intoxications 423	
	VI. Trauma to the head and spine 423	
	VII. Demyelinating and degenerative central nervous system diseases 425	

VIII.	Central nervous system neoplasms	427	
IX.	Disorders of the peripheral nervous system	433	
X.	Neuromuscular and motor unit disorders	434	
<b>22</b>	<b>Head and Neck</b>		<b>441</b>
	I. Mouth	441	
	II. Nasopharynx	443	
	III. Larynx	445	
	IV. Jaw	446	
	V. Salivary glands	447	
<b>23</b>	<b>Bones and Joints</b>		<b>457</b>
	I. Bones	457	
	II. Joints	467	
<b>24</b>	<b>Skin</b>		<b>475</b>
	I. General concepts	475	
	II. <i>Common skin diseases</i>	476	
	III. Disorders of keratin production	478	
	IV. Bullous diseases	479	
	V. Infections	481	
	VI. Nonmalignant pigmented lesions	482	
	VII. Tumors of the dermis	483	
	VIII. Cysts and tumors of the epidermis	487	
<b>25</b>	<b>Soft Tissues</b>		<b>493</b>
	I. General concepts	493	
	II. Pseudotumors (reactive or reparative processes)	493	
	III. Neoplasms	495	
	<b>Comprehensive Exam</b>		<b>CE-1</b>
	<b>Index</b>		<b>I-1</b>
