

# Acta Theriologica

Volume 59, Issue 1, January 2014

*In this issue (18 articles)*

---

1. Impact of landscape and habitat diversity on the diversity of diets of two omnivorous carnivores

Kaarina Kauhala, Anna Ihalainen Pages 1-12

2. Intraspecific, interspecific, and seasonal differences in the diet of three mid-sized carnivores in a large neotropical wetland

Rita de Cassia Bianchi, Renata Calixto Campos...Pages 13-23

3. Feeding habits of invasive American mink (*Neovison vison*) in northern Germany—potential implications for fishery and waterfowl

Jana Zschille, Norman Stier, Mechthild Roth, René Mayer Pages 25-34

4. Integrating aspects of ecology and predictive modelling: implications for the conservation of the leopard cat (*Prionailurus bengalensis*) in the Eastern Himalaya

Tawqir Bashir, Tapajit Bhattacharya, Kamal Poudyal...Pages 35-47

5. The biological potential of the raccoon dog (*Nyctereutes procyonoides*, Gray 1834) as an invasive species in Europe—new risks for disease spread?

Astrid Sutor, Sabine Schwarz, Franz Josef Conraths Pages 49-59

6. Variability of native and invasive raccoon dogs' *Nyctereutes procyonoides* populations: looking at translocation from a morphological point of view

Nikolay P. Korablev, Elwira Szuma Pages 61-79

7. Allometry of the postnatal cranial ontogeny and sexual dimorphism in *Otaria byronia* (Otariidae)

Bárbara A. Tarnawski, Guillermo H. Cassini, David A. Flores Pages 81-97

8. High efficiency protocol of DNA extraction from *Micromys minutus* mandibles from owl pellets: a tool for molecular research of cryptic mammal species

Magdalena M. Buś, Michał Żmihorski, Jerzy Romanowski...Pages 99-109

9. Non-invasive multi-species monitoring: real-time PCR detection of small mammal and squirrel prey DNA in pine marten (*Martes martes*) scats

Denise B. O'Meara, Emma Sheehy, Peter D. Turner, Declan O'Mahony...Pages 111-117

10. Distribution and genetic status of brown bears in FYR Macedonia: implications for conservation

Alexandros A. Karamanlidis, Aleksandar Stojanov...Pages 119-128

11. Selection of rub trees by brown bears (*Ursus arctos*) in Hokkaido, Japan

Yoshikazu Sato, Chisato Kamiishi, Tomoaki Tokaji, Masayuki Mori...Pages 129-137

12. Additive effects of climate and vegetation structure on the altitudinal distribution of greater white-toothed shrews *Crocidura russula* in a Mediterranean mountain range

Ignasi Torre, Mario Díaz, Antoni Arrizabalaga Pages 139-147

13. Vocal repertoire ontogeny of the captive Asian house shrew *Suncus murinus* suggests that the male courtship call develops from the caravanning call of the young

Irena Schneiderová Pages 149-164

14. Non-invasive methods of separating hedgehog (*Erinaceus europaeus*) age classes and an investigation into the age structure of road kill

Amy Haigh, Martina Kelly, Fidelma Butler, Ruth M. O'Riordan Pages 165-171

15. Nesting patterns of European hedgehogs (*Erinaceus europaeus*) under northern conditions

Anni Rautio, Anu Valtonen, Miina Auttila, Mervi Kunnasranta Pages 173-181

16. Diet of the gracile mouse opossum *Gracilinanus agilis* (Didelphimorphia: Didelphidae) in a neotropical savanna: intraspecific variation and resource selection

Nícholás F. de Camargo, Juliana F. Ribeiro, Amábilio J. A. de Camargo...Pages 183-191

17. Description of the nursery burrow of the Mexican cottontail rabbit *Sylvilagus cunicularius* under seminatural conditions

Luisa Rodríguez-Martínez, Robyn Hudson, Margarita Martínez-Gómez...Pages 193-201
