

-
1. White chest in the west: pelage colour and mitochondrial variation in the common hamster (*Cricetus cricetus*) across Europe
Oskar Schröder, Jonas Astrin, Rainer HuttererPages 211-221
 2. Genetic structuring of northern myotis (*Myotis septentrionalis*) at multiple spatial scales
Joshua B. Johnson, James H. Roberts, Timothy L. King, John W. Edwards...Pages 223-231
 3. Molecular systematics of small-eared shrews (Soricomorpha, Mammalia) within *Cryptotis mexicanus* species group from Mesoamérica
Lázaro Guevara, Fernando A. CervantesPages 233-242
 4. Chromosomal polymorphism of populations of the common shrew, *Sorex araneus* L., in Belarus
Yuri M. Borisov, Iryna A. Kryshchuk, Elena V. Cherepanova...Pages 243-249
 5. Socio-spatial ecology of pine marten (*Martes martes*) in conifer forests, Ireland
Declan T. O'MahonyPages 251-256
 6. Prey refuges as predator hotspots: ocelot (*Leopardus pardalis*) attraction to agouti (*Dasyprocta punctata*) dens
Willem-Jan Emsens, Ben T. Hirsch, Roland Kays, Patrick A. JansenPages 257-262
 7. Diet of the feral cat, *Felis catus*, in central Australian grassland habitats: do cat attributes influence what they eat?
Stephanie J. S. Yip, Chris R. Dickman, Elizabeth A. Denny...Pages 263-270
 8. Methodological problems related to spotlight count as a census technique for *Lepus europaeus* in an alpine environment
Paolo Tizzani, Arianna Menzano, Andrea Dematteis...Pages 271-276
 9. Home range use by the European hare (*Lepus europaeus*) in a structurally diverse agricultural landscape analysed at a fine temporal scale
Stéphanie C. Schai-Braun, Klaus HackländerPages 277-287
 10. Using remote sensing data to model European wild rabbit (*Oryctolagus cuniculus*) occurrence in a highly fragmented landscape in northwestern Spain
L. Tapia, J. Domínguez, A. Regos, M. VidalPages 289-298
 11. Body temperature patterns and use of torpor in an alpine glirid species, woolly dormouse
Mutlu Kart Gür, Şafak Bulut, Hakan Gür, Roberto RefinettiPages 299-309
 12. Summer mortality in the hazel dormouse (*Muscardinus avellanarius*) and its effect on population dynamics
Rimvydas JuškaitisPages 311-316
 13. Habitat preferences in gray marmots (*Marmota baibacina*)
Věra Pavelková Řičánková, Jan Riegert, Eva Semančíková, Martin Hais...Pages 317-324
 14. Long-term responses in population dynamics and diversity of small mammals in riparian and upland habitats within an agricultural landscape
Thomas P. Sullivan, Druscilla S. Sullivan, J. Hazel-rah SullivanPages 325-336

15. Diet selection in overwinter caches of plateau zokor (*Eospalax baileyi*)
Jiu-Xiang Xie, Gong-Hua Lin, Cui-Xia Liu, Chuan-Hua Yang...Pages 337-345
16. Internal architecture of pampas deer antlers differs in males allocated with and without females
Rodolfo Ungerfeld, Marcela CanabalPages 347-351
17. Differential selection of North American and Scandinavian conifer browse by northwestern moose (*Alces alces andersoni*) in winter
Roy V. Rea, Olav Hjeljord, Sauli HärkönenPages 353-360
- Short Communication
18. Pollen consumption by free-living mice
Pedro Adrián Aguilar-Rodríguez, M. Cristina MacSwiney G....Pages 361-365
