American Journal of Physiology- Heart and Circulatory Physiology

Volume 74

Number 6

DECEMBER 2013

Articles are published online twice monthly.

December 1, 2013

PERSPECTIVES

Three-dimensional printing physiology laboratory technology

*M. S. Sulkin, E. Widder, C. Shao, K. M. Holzem, C. Gloschat, S. R. Gutbrod,
and I. R. Efimov*

H1569

CALL FOR PAPERS

Sex and Gender Differences in Cardiovascular Physiology - Back to the Basics

Morphological and functional effects on cardiac tissue induced by moderate zinc deficiency during prenatal and postnatal life in male and female rats

*A. L. Tomat, L. V. Juriol, M. N. Gobetto, L. C. Veiras, F. M. G. Abregú, J. Zilberman,
H. Fasoli, R. Elesgaray, M. A. Costa, and C. T. Arranz*

H1574

Impact of sex on the heart's metabolic and functional responses to diabetic therapies

*M. R. Lyons, L. R. Peterson, J. B. McGill, P. Herrero, A. R. Coggan, I. M. Saeed,
C. Recklein, K. B. Schechtman, and R. J. Gropler*

H1584

VASCULAR BIOLOGY AND MICROCIRCULATION

Cell matrix contact modifies endothelial major histocompatibility complex class II expression in high-glucose environment

*M. Nickmann, M. Saemisch, U. Wilbert-Lampen, T. Nickel, E. R. Edelman,
and H. Methé*

H1592

Acute hyperinsulinemia increases the contraction of retinal arterioles induced by elevated blood pressure

P. Jeppesen, S. T. Knudsen, P. L. Poulsen, A. Hesselund, O. Schmitz, and T. Bek

H1600

Soluble epoxide hydrolase inhibitor *trans*-4-[4-(3-adamantan-1-yl-ureido)-cyclohexyloxy]-benzoic acid is neuroprotective in rat model of ischemic stroke

*J. S. B. Shaik, M. Ahmad, W. Li, M. E. Rose, L. M. Foley, T. K. Hitchens,
S. H. Graham, S. H. Hwang, B. D. Hammock, and S. M. Poloyac*

H1605

MUSCLE MECHANICS AND VENTRICULAR FUNCTION

Phosphatidylinositol 4,5-bisphosphate regulates CapZ β 1 and actin dynamics in response to mechanical strain

J. Li and B. Russell

H1614

Systems proteomics of cardiac chromatin identifies nucleolin as a regulator of growth and cellular plasticity in cardiomyocytes

*E. Monte, K. Mouillesseaux, H. Chen, T. Kimball, S. Ren, Y. Wang, J.-N. Chen,
T. M. Vondriska, and S. Franklin*

H1624

(Continued)

(Contents continued)

CARDIOVASCULAR NEUROHORMONAL REGULATION

Endothelium-derived hyperpolarizing factor contributes to hypoxia-induced skeletal muscle vasodilation in humans

S. Spilk, M. D. Herr, L. I. Sinoway, and U. A. Leuenberger

H1639

INTEGRATIVE CARDIOVASCULAR PHYSIOLOGY AND PATHOPHYSIOLOGY

Inhibition of Orail-mediated Ca^{2+} entry is a key mechanism of the antiproliferative action of sirolimus in human arterial smooth muscle

S. König, S. Browne, B. Doleschal, M. Schernthaner, M. Poteser, H. Mächler, E. Wittchow, M. Braune, M. Muik, C. Romanin, and K. Groschner

H1646

A novel heart failure mice model of hypertensive heart disease by angiotensin II infusion, nephrectomy, and salt loading

Y. Tsukamoto, T. Mano, Y. Sakata, T. Ohtani, Y. Takeda, S. Tamaki, Y. Omori, Y. Ikeya, Y. Saito, R. Ishii, M. Higashimori, M. Kaneko, T. Miwa, K. Yamamoto, and I. Komuro

H1658

A_1 adenosine receptor negatively modulates coronary reactive hyperemia via counteracting $\text{A}_{2\text{A}}$ -mediated H_2O_2 production and K_{ATP} opening in isolated mouse hearts

X. Zhou, B. Teng, S. Tilley, and S. J. Mustafa

H1668

LETTERS TO THE EDITOR

Letter to the editor: "Pulsatile pulmonary artery pressure: are fluid-filled catheters accurate in pulmonary hypertension?"

D. Chemla, V. Castelain, and P. Herve

H1680

Reply to "Letter to the editor: 'Pulsatile pulmonary artery pressure: are fluid-filled catheters accurate in pulmonary hypertension?'"

R. V. MacKenzie Ross, M. R. Toshner, E. Soon, R. Naeije, and J. Pepke-Zaba

H1682
