Issues are published online twice monthly;
complete contents are listed below.

American Journal of Physiology- Cell Physiology

March 1, 2014

REVIEW

Possible causes of apoptotic volume decrease: an attempt at quantitative review
M. A. Model C417

EDITORIAL FOCI

Changing white into brite adipocytes. Focus on “BMP4 and BMP7 induce the white-to-brown transition of primary human adipose stem cells”
M.-J. Obregon C425

Don't wanna be Obama (all by my) self: Rab11a is involved in sequestration of fluid-phase cargo from membrane cargo. Focus on “Rab11a-positive compartments in proximal tubule cells sort fluid-phase and membrane cargo”
C. T. Okamoto C428

CALL FOR PAPERS Stem Cell Physiology and Pathophysiology

BMP4 and BMP7 induce the white-to-brown transition of primary human adipose stem cells
M. Elsen, S. Raschke, N. Tennagels, U. Schwahn, T. Jelenik, M. Roden, T. Romacho, and J. Eckel C431

Rab11a-positive compartments in proximal tubule cells sort fluid-phase and membrane cargo
P. E. Mattila, V. Raghavan, Y. Rbaibi, C. J. Baty, and O. A. Weisz C441

Functional properties of human ferroportin, a cellular iron exporter reactive also with cobalt and zinc
C. J. Mitchell, A. Shawki, T. Ganz, E. Nemeth, and B. Mackenzie C450

Large-conductance voltage- and Ca²⁺-activated K⁺ channel regulation by protein kinase C in guinea pig urinary bladder smooth muscle
K. L. Hristov, A. C. Smith, S. P. Parajuli, J. Malysz, and G. V. Petkov C460

Cholera toxin enhances Na⁺ absorption across MCF10A human mammary epithelia
Q. Wang and B. D. Schultz C471

Grape-seed procyanidins modulate cellular membrane potential and nutrient-induced GLP-1 secretion in STC-1 cells
N. González-Abuín, N. Martínez-Micaelo, M. Blay, B. D. Green, M. Pinent, and A. Ardévol C485

Autocrine regulation of glioma cell proliferation via pH_e-sensitive K⁺ channels
A. Honasoge, K. A. Shelton, and H. Sontheimer C493

Cx46 hemichannels contribute to the sodium leak conductance in lens fiber cells
L. Ebihara, Y. Korzyukov, S. Kothari, and J.-J. Tong C506

CORRIGENDUM

Corrigendum for Matsumoto T et al., Volume 305/74, September 2013, p. C623–C631

C514

March 15, 2014

REVIEW

Cellular calcium dynamics in lactation and breast cancer: from physiology to pathology

B. M. Cross, G. E. Breitwieser, T. A. Reinhardt, and R. Rao

C515

EDITORIAL FOCI

A new molecular target for blunting organ fibrosis. Focus on “Secreted Frizzled-related protein 2 as a target in antifibrotic therapeutic intervention”

R. S. Ostrom

C527

Tiny transporters: how exosomes and calcineurin signaling regulate miR-23a levels during muscle atrophy. Focus on “miR-23a is decreased during muscle atrophy by a mechanism that includes calcineurin signaling and exosome-mediated export”

C. S. Fry

C529

CALL FOR PAPERS Cellular Mechanisms of Tissue Fibrosis

Secreted Frizzled-related protein 2 as a target in antifibrotic therapeutic intervention

M. Matri, Z. Shah, K. Hsieh, X. Wang, B. Wooldridge, S. Martin, G. Suzuki, and T. Lee

C531

A novel β -adrenergic response element regulates both basal and agonist-induced expression of cyclin-dependent kinase 1 gene in cardiac fibroblasts

G. J. Gaspard, J. MacLean, D. Rioux, and K. B. S. Pasumarthi

C540

miR-23a is decreased during muscle atrophy by a mechanism that includes calcineurin signaling and exosome-mediated export

M. B. Hudson, M. E. Woodworth-Hobbs, B. Zheng, J. A. Rahnert, M. A. Blount, J. L. Gooch, C. D. Searles, and S. R. Price

C551

Protein kinase G increases antioxidant function in lung microvascular endothelial cells by inhibiting the c-Abl tyrosine kinase

R. S. Stephens, L. E. Servinsky, O. Rentsendorj, T. M. Kolb, A. Pfeifer, and D. B. Pearce

C559

Mathematical modeling reveals modulation of both nuclear influx and efflux of Foxo1 by the IGF-1/PI3K/Akt pathway in skeletal muscle fibers

R. J. Wimmer, Y. Liu, T. N. Schachter, D. P. Stonko, B. E. Peercy, and M. F. Schneider

C570

A-kinase anchoring proteins contribute to loss of E-cadherin and bronchial epithelial barrier by cigarette smoke

A. Oldenburger, W. J. Poppinga, F. Kos, H. G. de Bruin, W. F. Rijks, I. H. Heijink, W. Timens, H. Meurs, H. Maarsingh, and M. Schmidt

C585

Elevated cAMP increases aquaporin-3 plasma membrane diffusion

S. Marlar, E. C. Arnsparng, J. S. Koffman, E.-M. Løcke, B. M. Christensen, and L. N. Nejsum

C598

Force-dependent vinculin binding to talin in live cells: a crucial step in anchoring the actin cytoskeleton to focal adhesions

H. Hirata, H. Tatsumi, C. T. Lim, and M. Sokabe

C607

American Journal of Physiology- Endocrinology and Metabolism

March 1, 2014

Skeletal muscle mitochondrial uncoupling drives endocrine cross-talk through the induction of FGF21 as a myokine

S. Keipert, M. Ost, K. Johann, F. Imber, M. Jastroch, E. M. van Schothorst, J. Keijer, and S. Klaus

E469

- Porcine sst1 can physically interact with other somatostatin receptors, and its expression is regulated by metabolic/inflammatory sensors
M. D. Gahete, M. Durán-Prado, E. Delgado-Niebla, J. J. Garrido, S. J. Rhodes, S. García-Navarro, F. Gracia-Navarro, M. M. Malagón, R. M. Luque, and J. P. Castaño E483
- Skeletal muscle as a target of LXR agonist after long-term treatment: focus on lipid homeostasis
A. Archer, J. Laurencikiene, O. Ahmed, K. R. Steffensen, P. Parini, J.-Å. Gustafsson, and M. Korach-André E494
- Impaired exercise-induced mitochondrial biogenesis in the obese Zucker rat, despite PGC-1 α induction, is due to compromised mitochondrial translation elongation
N. P. Greene, M. I. Nilsson, T. A. Washington, D. E. Lee, L. A. Brown, A. M. Papineau, K. L. Shimkus, E. S. Greene, S. F. Crouse, and J. D. Fluckey E503
- The identification of irisin in human cerebrospinal fluid: influence of adiposity, metabolic markers, and gestational diabetes
M. K. Piya, A. L. Harte, K. Sivakumar, G. Tripathi, P. D. Voyias, S. James, S. Sabico, N. M. Al-Daghri, P. Saravanan, T. M. Barber, S. Kumar, M. Vatish, and P. G. McTernan E512
- Exercise training boosts eNOS-dependent mitochondrial biogenesis in mouse heart: role in adaptation of glucose metabolism
R. Vettor, A. Valerio, M. Ragni, E. Trevellin, M. Granzotto, M. Olivieri, L. Tedesco, C. Ruocco, A. Fossati, R. Fabris, R. Serra, M. O. Carruba, and E. Nisoli E519
- Impact of insulin deprivation and treatment on sphingolipid distribution in different muscle subcellular compartments of streptozotocin-diabetic C57Bl/6 mice
P. Zabielski, A. Blachnio-Zabielska, I. R. Lanza, S. Gopala, S. Manjunatha, D. R. Jakaitis, X.-M. Persson, J. Gransee, K. A. Klaus, J. M. Schimke, M. D. Jensen, and K. S. Nair E529
- Transgenic overexpression of hexose-6-phosphate dehydrogenase in adipose tissue causes local glucocorticoid amplification and lipolysis in male mice
Y. Wang, L. Liu, H. Du, Y. Nagaoka, W. Fan, K. Lutfy, T. C. Friedman, M. Jiang, and Y. Liu E543
- Long-term ketogenic diet causes glucose intolerance and reduced β - and α -cell mass but no weight loss in mice
J. H. Ellenbroek, L. van Dijck, H. A. Töns, T. J. Rabelink, F. Carlotti, B. E. P. B. Ballieux, and E. J. P. de Koning E552
- Three-dimensional islet graft histology: panoramic imaging of neural plasticity in sympathetic reinnervation of transplanted islets under the kidney capsule
J.-H. Juang, S.-J. Peng, C.-H. Kuo, and S.-C. Tang E559

INNOVATIVE METHODOLOGY

- A validation of the application of D₂O stable isotope tracer techniques for monitoring day-to-day changes in muscle protein subfraction synthesis in humans
D. J. Wilkinson, M. V. Franchi, M. S. Brook, M. V. Narici, J. P. Williams, W. K. Mitchell, N. J. Szewczyk, P. L. Greenhaff, P. J. Atherton, and K. Smith E571

CORRIGENDUM

- Corrigendum for Segalés J et al., Volume 305, November 2013, p. E1208–E1221 E580

March 15, 2014

REVIEW

- The biochemistry and cell biology of aging: metabolic regulation through mitochondrial signaling
Y. C. Long, T. M. C. Tan, I. Takao, and B. L. Tang E581

-
- Effects of insulin resistance on skeletal muscle growth and exercise capacity in type 2 diabetic mouse models
J. E. Ostler, S. K. Maurya, J. Dials, S. R. Roof, S. T. Devor, M. T. Ziolo, and M. Periasamy E592
- Estradiol modulates Kiss1 neuronal response to ghrelin
R. Frazao, H. M. D. Lemko, R. P. da Silva, D. V. Ratra, C. E. Lee, K. W. Williams, J. M. Zigman, and C. F. Elias E606

Activation of alternative NF- κ B signaling during recovery of disuse-induced loss of muscle oxidative phenotype <i>A. H. V. Remels, N. A. Pansters, H. R. Gosker, A. M. W. J. Schols, and R. C. J. Langen</i>	E615
Minimal modeling of insulin secretion in the perfused rat pancreas: a drug effect case study <i>M. Riz, M. G. Pedersen, G. M. Toffolo, G. Haschke, H.-C. Schneider, T. Klabunde, D. Margerie, and C. Cobelli</i>	E627
Leanness and heightened nonresting energy expenditure: role of skeletal muscle activity thermogenesis <i>C. K. Gavini, S. Mukherjee, C. Shukla, S. L. Britton, L. G. Koch, H. Shi, and C. M. Novak</i>	E635
IL-1 β hampers glucose-stimulated insulin secretion in Cohen diabetic rat islets through mitochondrial cytochrome <i>c</i> oxidase inhibition by nitric oxide <i>S. Weksler-Zangen, G. Aharon-Hananel, C. Mantzur, T. Aouizerat, E. Gurgul-Convey, I. Raz, and A. Saada</i>	E648
Early mitochondrial dysfunction in glycolytic muscle, but not oxidative muscle, of the fructose-fed insulin-resistant rat <i>B. E. Warren, P.-H. Lou, E. Lucchinetti, L. Zhang, A. S. Clanachan, A. Affolter, M. Hersberger, M. Zaugg, and H. Lemieux</i>	E658
Disturbed intestinal nitrogen homeostasis in a mouse model of high-fat diet-induced obesity and glucose intolerance <i>T. T. H. Do, P. Hindlet, A.-J. Waligora-Dupriet, N. Kapel, N. Neveux, V. Mignon, C. Deloménie, R. Farinotti, B. Fève, and M. Buyse</i>	E668
Regulation of body temperature and brown adipose tissue thermogenesis by bombesin receptor subtype-3 <i>D. M. Lateef, G. Abreu-Vieira, C. Xiao, and M. L. Reitman</i>	E681
Enhanced activation of cellular AMPK by dual-small molecule treatment: AICAR and A769662 <i>S. Ducommun, R. J. Ford, L. Bultot, M. Deak, L. Bertrand, B. E. Kemp, G. R. Steinberg, and K. Sakamoto</i>	E688
Insulinotropic effect of high potassium concentration beyond plasma membrane depolarization <i>M. Belz, M. Willenborg, N. Görgler, A. Hamada, K. Schumacher, and I. Rustenbeck</i>	E697

American Journal of Physiology- Gastrointestinal and Liver Physiology

March 1, 2014

EDITORIAL

Young Investigator Perspectives. Networking and service through professional societies <i>K. L. Edelblum</i>	G359
---	------

MUCOSAL BIOLOGY

Inhibition of Notch signaling reduces the number of surviving Dclk1 ⁺ reserve crypt epithelial stem cells following radiation injury <i>D. Qu, R. May, S. M. Sureban, N. Weygant, P. Chandrakesan, N. Ali, L. Li, T. Barrett, and C. W. Houchen</i>	G404
---	------

INFLAMMATION/IMMUNITY/MEDIATORS

Amniotic fluid-borne hepatocyte growth factor protects rat pups against experimental necrotizing enterocolitis <i>S. K. Jain, E. W. Baggerman, K. MohanKumar, K. Namachivayam, R. Jagadeeswaran, V. E. Reyes, and A. Maheshwari</i>	G361
Chorioamnionitis-induced fetal gut injury is mediated by direct gut exposure of inflammatory mediators or by lung inflammation <i>T. G. A. M. Wolfs, B. W. Kramer, G. Thuijls, M. W. Kemp, M. Saito, M. G. M. Willems, P. Senthamarai-Kannan, J. P. Newnham, A. H. Jobe, and S. G. Kallapur</i>	G382
Role of innate immunity and altered intestinal motility in LPS- and MnCl ₂ -induced intestinal intussusception in mice <i>K. E. Killoran, A. D. Miller, K. S. Uray, N. W. Weisbrodt, R. G. Pautler, S. M. Goyert, N. van Rooijen, and M. E. Conner</i>	G445

HORMONES AND SIGNALING

Epidermal growth factor receptor plays a role in the regulation of liver and plasma lipid levels in adult male mice

L. A. Scheving, X. Zhang, O. A. Garcia, R. F. Wang, M. C. Stevenson, D. W. Threadgill, and W. E. Russell

G370

NEUROREGULATION AND MOTILITY

Metoclopramide does not increase gastric muscle contractility in newborn rats

M. Y. Kasirer, C. Welsh, J. Pan, Y. Shifrin, and J. Belik

G439

LIVER AND BILIARY TRACT

Rab1a regulates sorting of early endocytic vesicles

A. Mukhopadhyay, J. A. Quiroz, and A. W. Wolkoff

G412

Osta^{-/-} mice exhibit altered expression of intestinal lipid absorption genes, resistance to age-related weight gain, and modestly improved insulin sensitivity

S. G. Wheeler, C. L. Hammond, F. R. Jornayvaz, V. T. Samuel, G. I. Shulman, C. J. Soroka, J. L. Boyer, P. M. Hinkle, and N. Ballatori

G425

CANCER BIOLOGY

Identification of HnRNP M as a novel biomarker for colorectal carcinoma by quantitative proteomics

S. Chen, J. Zhang, L. Duan, Y. Zhang, C. Li, D. Liu, C. Ouyang, F. Lu, and X. Liu

G394

March 15, 2014

REVIEWS

Granulocyte macrophage colony-stimulating factor and the intestinal innate immune cell homeostasis in Crohn's disease

J. Däbritz

G455

Human cationic trypsinogen (*PRSSI*) variants and chronic pancreatitis

B. C. Németh and M. Sahin-Tóth

G466

Role of GATA factors in development, differentiation, and homeostasis of the small intestinal epithelium

B. E. Aronson, K. A. Stapleton, and S. D. Krasinski

G474

CALL FOR PAPERS

Innovative and Emerging Technologies in GI Physiology and Disease

Water-perfused esophageal high-resolution manometry: normal values and validation

B. F. Kessing, P. W. Weijenburg, A. J. P. M. Smout, S. Hillenius, and A. J. Bredenoord

G491

INFLAMMATION/IMMUNITY/MEDIATORS

Testing safety of germinated rye sourdough in a celiac disease model based on the adoptive transfer of prolamin-primed memory T cells into lymphopenic mice

T. L. Freitag, J. Laponen, M. Messing, V. Zevallos, L. C. Andersson, T. Sontag-Strohm, P. Saavalainen, D. Schuppan, H. Salovaara, and S. Meri

G526

HORMONES AND SIGNALING

Glial cell line-derived neurotrophic factor protects against high-fat diet-induced obesity

S. M. Mwangi, B. G. Nezami, B. Obukwelu, M. Anitha, S. Marri, P. Fu, M. F. Epperson, N.-A. Le, M. Shanmugam, S. V. Sitaraman, Y.-H. Tseng, F. A. Anania, and S. Srinivasan

G515

Inhibitory signaling by CB₁ receptors in smooth muscle mediated by GRK5/ β -arrestin activation of ERK1/2 and Src kinase

S. Mahavadi, W. Sriwai, J. Huang, J. R. Grider, and K. S. Murthy

G535

NEUROREGULATION AND MOTILITY

Purse-string morphology of external anal sphincter revealed by novel imaging techniques

R. K. Mittal, V. Bhargava, G. Sheean, M. Ledgerwood, and S. Sinha

G505

LIVER AND BILIARY TRACT

Dissociation of hepatic insulin resistance from susceptibility of nonalcoholic fatty liver disease induced by a high-fat and high-carbohydrate diet in mice

A. Asai, P. M. Chou, H.-F. Bu, X. Wang, M. Sambasiva Rao, A. Jiang, C. J. DiDonato, and X.-D. Tan

G496

American Journal of Physiology- Lung Cellular and Molecular Physiology

March 1, 2014

PERSPECTIVES

Nanoparticles and the lung: friend or foe?

Y. S. Prakash and S. Matalon

L393

CALL FOR PAPERS

Translational Research in Acute Lung Injury and Pulmonary Fibrosis

Enhanced lysis and accelerated establishment of viscoelastic properties of fibrin clots are associated with pulmonary embolism

M. R. Martinez, A. Cuker, A. M. Mills, A. Crichlow, R. T. Lightfoot, I. N. Chernysh, C. Nagaswami, J. W. Weisel, and H. Ischiropoulos

L397

Grainyhead-like 2 (GRHL2) distribution reveals novel pathophysiological differences between human idiopathic pulmonary fibrosis and mouse models of pulmonary fibrosis

S. Varma, P. Mahavadi, S. Sasikumar, L. Cushing, T. Hyland, A. E. Rosser, D. Riccardi, J. Lu, T. V. Kalin, V. V. Kalinichenko, A. Guenther, M. I. Ramirez, A. Pardo, M. Selman, and D. Warburton

L405

Vitamin D treatment improves survival and infant lung structure after intra-amniotic endotoxin exposure in rats: potential role for the prevention of bronchopulmonary dysplasia

E. Mandell, G. Seedorf, J. Gien, and S. H. Abman

L420

Glutathione attenuates ethanol-induced alveolar macrophage oxidative stress and dysfunction by downregulating NADPH oxidases

S. M. Yeligar, F. L. Harris, C. M. Hart, and L. A. S. Brown

L429

Pulmonary vasoconstrictor influence of endothelin in exercising swine depends critically on phosphodiesterase 5 activity

Z. Zhou, V. J. de Beer, D. de Wijs-Meijler, S. B. Bender, M. Hoekstra, M. H. Laughlin, D. J. Duncker, and D. Merkus

L442

IFN- γ -mediated reduction of large-conductance, Ca²⁺-activated, voltage-dependent K⁺ (BK) channel activity in airway epithelial cells leads to mucociliary dysfunction

D. Manzanares, M. Srinivasan, S. T. Salathe, P. Ivonnet, N. Baumlin, J. S. Dennis, G. E. Conner, and M. Salathe

L453

March 15, 2014

CALL FOR PAPERS

Bioengineering the Lung: Molecules, Materials, Matrix, Morphology, and Mechanics

Fibroblast engraftment in the decellularized mouse lung occurs via a β 1-integrin-dependent, FAK-dependent pathway that is mediated by ERK and opposed by AKT

H. Sun, E. Calle, X. Chen, A. Mathur, Y. Zhu, J. Mendez, L. Zhao, L. Niklason, X. Peng, H. Peng, and E. L. Herzog

L463

CALL FOR PAPERS

Real-time Visualization of Lung Function: from Micro to Macro

KCNQ (Kv7) potassium channel activators as bronchodilators: combination with a β ₂-adrenergic agonist enhances relaxation of rat airways

L. I. Brueggemann, J. M. Haick, S. Neuburg, S. Tate, D. Randhawa, L. L. Cribbs, and K. L. Byron

L476

CALL FOR PAPERS
Biomarkers in Lung Diseases: from Pathogenesis to Prediction
to New Therapies

- Macrophage migration inhibitory factor deficiency in chronic obstructive pulmonary disease
M. Sauler, L. Leng, M. Trentalange, M. Haslip, P. Shan, M. Piecychna, Y. Zhang, N. Andrews, P. Mannam, H. Allore, T. Fried, R. Bucala, and P. J. Lee L487
-
- Protective effect of adenosine receptors against lipopolysaccharide-induced acute lung injury
J. N. Gonzales, B. Gorshkov, M. N. Varn, M. A. Zemskova, E. A. Zemskov, S. Sridhar, R. Lucas, and A. D. Verin L497
- Pivotal role of IL-6 in the hyperinflammatory responses to subacute ozone in adiponectin-deficient mice
D. I. Kasahara, H. Y. Kim, J. A. Mathews, N. G. Verbout, A. S. Williams, A. P. Wurmbrand, F. M. C. Ninin, F. L. Neto, L. A. P. Bedito, C. Hug, D. T. Umetsu, and S. A. Shore L508
- Nox2/ROS-dependent human antigen R translocation contributes to TNF- α -induced SOCS-3 expression in human tracheal smooth muscle cells
C.-K. Hsu, I.-T. Lee, C.-C. Lin, L.-D. Hsiao, and C.-M. Yang L521
- Let-7d microRNA affects mesenchymal phenotypic properties of lung fibroblasts
L. Huleihel, A. Ben-Yehudah, J. Milosevic, G. Yu, K. Pandit, K. Sakamoto, H. Yousef, M. LeJeune, T. A. Coon, C. J. Redinger, L. Chensny, E. Manor, G. Schatten, and N. Kaminski L534
- TNF- α induces cytosolic phospholipase A₂ expression via Jak2/PDGFR-dependent Elk-1/p300 activation in human lung epithelial cells
C.-M. Yang, I.-T. Lee, P.-L. Chi, S.-E. Cheng, L.-D. Hsiao, and C.-K. Hsu L543
- Reprogramming of COPD lung fibroblasts through formation of induced pluripotent stem cells
H. Basma, Y. Gunji, S. Iwasawa, A. Nelson, M. Farid, J. Ikari, X. Liu, X. Wang, J. Michalski, L. Smith, J. Iqbal, R. E. Behery, W. West, S. Yelamanchili, D. Rennard, O. Holz, K.-C. Mueller, H. Magnussen, K. Rabe, Peter J Castaldi, and S. I. Rennard L552
- Loss of caveolin-1 and adiponectin induces severe inflammatory lung injury following LPS challenge through excessive oxidative/nitrative stress
L. Cai, F. Yi, Z. Dai, X. Huang, Y. D. Zhao, M. K. Mirza, J. Xu, S. M. Vogel, and Y.-Y. Zhao L566
- Transgelin as a therapeutic target to prevent hypoxic pulmonary hypertension
R. Zhang, L. Shi, L. Zhou, G. Zhang, X. Wu, F. Shao, G. Ma, and K. Ying L574
- Aging causes a slowing in ciliary beat frequency, mediated by PKC ϵ
K. L. Bailey, S. J. Bonasera, M. Wilderdyke, B. W. Hanisch, J. A. Pavlik, J. DeVasure, J. E. Robinson, J. H. Sisson, and T. A. Wyatt L584
