

# Annales Zoologici Fennici

## *Table of Contents*

Oct 2014 : Volume 51 Issue 5

**1. Are Different Allozyme Genotypes of the Butterfly *Polyommatus coridon* Adapted to Resist Cold and Heat Shocks?**

Mailin Ashoff and Thomas Schmitt

*Annales Zoologici Fennici* **2014** 51 (5), 413-422

**2. Niche Segregation between Two Medium-Sized Carnivores in a Hilly Area of Hungary**

Mihály Márton, Ferenc Markolt, László Szabó, and Miklós Heltai

*Annales Zoologici Fennici* **2014** 51 (5), 423-432

**3. Endogenous Seasonal Variation in the Encapsulation Response of the Noble Crayfish (*Astacus astacus*)**

Christina Gruber, Anssi Vainikka, Heikki Hirvonen, Markus J. Rantala, and Raine Kortet

*Annales Zoologici Fennici* **2014** 51 (5), 433-444

**4. The Roles of Phylogeny and Climate in Shaping Variation in Life-History Traits of the Newt Genus *Triturus* (Caudata, Salamandridae)**

Tanja D. Vukov, Milena Cvijanović, Ben Wielstra, and Miloš L. Kalezić

*Annales Zoologici Fennici* **2014** 51 (5), 445-456

**5. Indicators of Forest Biodiversity: Which Bird Species Predict High Breeding Bird Assemblage Diversity in Boreal Forests at Multiple Spatial Scales?**

Timo Pakkala, Andreas Lindén, Juha Tiainen, Erkki Tomppo, and Jari Kouki

*Annales Zoologici Fennici* **2014** 51 (5), 457-476
