

Volume 90, Issue 7
July 2025

New Advances in Photobiochemistry and Photobiophysics (Special Issue) Guest Editors: Maria M. Borisova-Mubarakshina, Alexey Yu. Semenov, and Vladimir S. Sukhov

13 articles in this issue

Preface to the Special Issue “New Advances in Photobiochemistry and Photobiophysics”

EDITORIAL NOTES | 31 July 2025 | Pages: 829 - 829

Study of Electron Transfer in Photosystem I Using High-Frequency EPR Spectroscopy. In Memory of Professor Klaus Möbius (1936-2024)

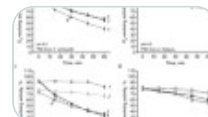

REVIEW | 31 July 2025 | Pages: 830 - 839

Photosynthetic Control and Its Role in Protection of Photosystem I against Photoinhibition

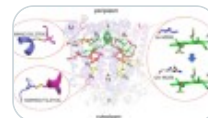

REVIEW | 31 July 2025 | Pages: 840 - 859

Protective Effect of α -Carbonic Anhydrase CAH3 Against Photoinhibition and Thermal Inactivation of Photosystem II in Membrane Preparations as Compared with α -Carbonic Anhydrase CA4

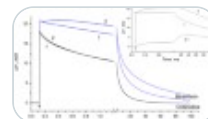

OriginalPaper | 31 July 2025 | Pages: 860 - 872

An Attempt to Increase Thermostability of the Mutant Photosynthetic Reaction Center of *Cereibacter sphaeroides* Using Disulfide Bonds

OriginalPaper | 31 July 2025 | Pages: 873 - 881

Cationic Antiseptics Disrupt the Functioning of the Electron-Transport Chain at the Acceptor Side in the Photosynthetic Reaction Centres of the Purple Bacterium *Cereibacter sphaeroides*

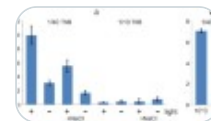

OriginalPaper | 31 July 2025 | Pages: 882 - 893

Features of Photosynthesis in *Arabidopsis thaliana* Plants with Knocked out Genes Encoding Chloroplast Carbonic Anhydrases α CA1 and β CA1

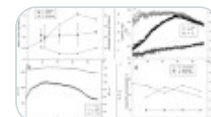

OriginalPaper | 31 July 2025 | Pages: 894 - 910

Effect of Cultivation Conditions on the Expression of the *Exiguobacterium sibiricum* Proteorhodopsin Gene

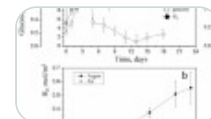

OriginalPaper | 31 July 2025 | Pages: 911 - 920

Relationship between the Photosystem II Regulation Mechanisms and Hydrogen Production in *Chlamydomonas reinhardtii* under Nitrogen or Sulfur Deprivation

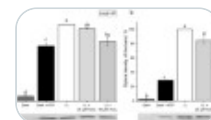

OriginalPaper | 31 July 2025 | Pages: 921 - 933

Short-Term Photoinhibition Induces Long-Term Hydrogen Photoproduction in a Phototrophic Culture of *Chlorella sorokiniana* on Complete Medium

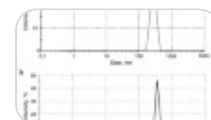

OriginalPaper | 31 July 2025 | Pages: 934 - 942

The Effect of Hydrogen Peroxide on the Redistribution of Antenna Complexes Between Photosystems in Higher Plants

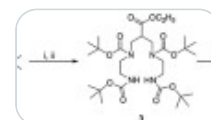

OriginalPaper | 31 July 2025 | Pages: 943 - 955

Protective Role of Plastoquinone in the Early Stages of Second-Degree Thermal Skin Burn

OriginalPaper | 31 July 2025 | Pages: 956 - 974

Novel Branched Polyamine-Modified Chlorin with a Photoinduced Antimicrobial Activity

OriginalPaper | Open access | 31 July 2025 | Pages: 975 - 983
