

15 articles in this issue

Diagnostics of Synucleinopathies by Protein Amplification Methods: Methodological and Bibliometric Analysis

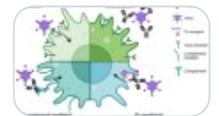

REVIEW | 10 February 2026 | Pages: 1 - 16

Role of Cytokines IL-25, IL-33, and TSLP in the Respiratory Tract Inflammation: Therapeutic Perspectives

REVIEW | 10 February 2026 | Pages: 17 - 38

Molecular Mechanisms of Antibody-Dependent Enhancement of Viral Infection

REVIEW | 10 February 2026 | Pages: 39 - 47

Rhamnans of Monoderm Bacterial Cell Walls: Structural Diversity and Functional Significance

REVIEW | 10 February 2026 | Pages: 48 - 65

Interaction of *Mycobacterium tuberculosis* with the Host from the Pathogen's Perspective

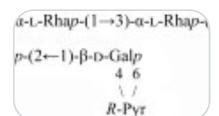

REVIEW | 10 February 2026 | Pages: 66 - 75

Aging as a Programmed Process or Result of Wear and Tear (Stochastics): The Dichotomy that Excludes Simple Non-Obligatory Dysregulation as a Root Cause of Aging

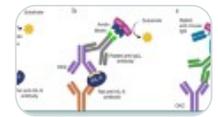

MINI-REVIEW | 10 February 2026 | Pages: 76 - 80

Structure of *Klebsiella grimontii* K15g Capsular Polysaccharide and Products of Its Cleavage by Phage Silvester Depolymerase

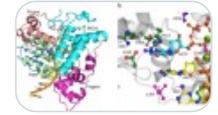

OriginalPaper | 10 February 2026 | Pages: 81 - 94

Detection of Free and Olokizumab-Bound Interleukin-6 during Anticytokine Therapy

OriginalPaper | 10 February 2026 | Pages: 95 - 101

Coordination of Nucleoside Triphosphates in the Active Site of the Human TdT during Template-Independent DNA Synthesis

OriginalPaper | 10 February 2026 | Pages: 102 - 118

An Intragenic Promoter and miRNA Binding Sites within the Protein-Coding Sequence: Futures of the Regulation of the Evolutionarily Young Gene *lawc* in *Drosophila melanogaster*

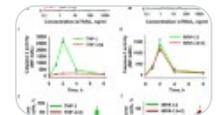

OriginalPaper | 10 February 2026 | Pages: 119 - 130

Intragenomic Polymorphism of 35S rDNA Internal Transcribed Spacers: Verification of the Hypothesis on the Hybridogenic Origin of Tetraploid *Pulsatilla vulgaris*

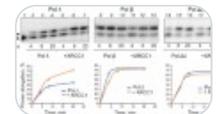

OriginalPaper | 10 February 2026 | Pages: 131 - 144

Effect of Quizartinib on the Resistance of Acute Myeloid Leukemia Cells with FLT3-ITD-Positive and FLT3-ITD-Negative Phenotypes to the TRAIL-Induced Apoptosis

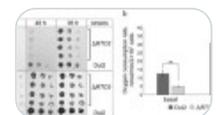

OriginalPaper | 10 February 2026 | Pages: 145 - 163

Regulation of Activity of DNA Polymerases β and λ by XRCC1, PARP1, and PARP2 Proteins

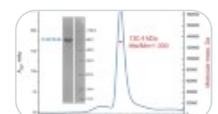

OriginalPaper | 10 February 2026 | Pages: 164 - 177

Functional Divergence of bL36m Protein in Yeast and Human Mitochondrial Ribosomes

OriginalPaper | 10 February 2026 | Pages: 178 - 187

C-Terminal Fragment of Filamin C Containing Immunoglobulin-Like Domains 19-24 Selectively Interacts with the Small Heat Shock Protein HspB7

OriginalPaper | 10 February 2026 | Pages: 188 - 198
