

January 22, 2013
Volume 52, Issue 3
Pages 447-568

Articles

Dynamic Factors Affecting Gaseous Ligand Binding in an Artificial Oxygen Transport Protein

Lei Zhang, Eskil M. E. Andersen, Abdelahad Khajo, Richard S. Magliozzo, and Ronald L. Koder
pp 447–455

Publication Date (Web): December 18, 2012 (Article)

DOI: 10.1021/bi301066z

Signal Transduction and Phosphoryl Transfer by a FixL Hybrid Kinase with Low Oxygen Affinity: Importance of the Vicinal PAS Domain and Receiver Aspartate

Eduardo H. S. Sousa, Jason R. Tuckerman, Ana C. S. Gondim, Gonzalo Gonzalez, and Marie-Alda Gilles-Gonzalez
pp 456–465

Publication Date (Web): January 2, 2013 (Article)

DOI: 10.1021/bi300991r

Energetic Coupling between an Oxidizable Cysteine and the Phosphorylatable N-Terminus of Human Liver Pyruvate Kinase

Todd Holyoak, Bing Zhang, Junpeng Deng, Qingling Tang, Charulata B. Prasannan, and Aron W. Fenton
pp 466–476

Publication Date (Web): December 27, 2012 (Article)

DOI: 10.1021/bi301341r

Structural and Mechanistic Studies of HpxO, a Novel Flavin Adenine Dinucleotide-Dependent Urate Oxidase from *Klebsiella pneumoniae*

Katherine A. Hicks, Seán E. O'Leary, Tadhg P. Begley, and Steven E. Ealick
pp 477–487

Publication Date (Web): December 21, 2012 (Article)

DOI: 10.1021/bi301262p

Characterizing the Importance of the Biotin Carboxylase Domain Dimer for *Staphylococcus aureus* Pyruvate Carboxylase Catalysis

Linda P. C. Yu, Chi-Yuan Chou, Philip H. Choi, and Liang Tong
pp 488–496

Publication Date (Web): January 3, 2013 (Article)

DOI: 10.1021/bi301294d

Thermal Inactivation of Uricase (Urate Oxidase): Mechanism and Effects of Additives

Michael S. Caves, Barry K. Derham, Jan Jezek, and Robert B. Freedman

pp 497–507

Publication Date (Web): December 13, 2012 (Article)

DOI: 10.1021/bi301334w

Structural and Functional Insights into the Regulation of Helicobacter pylori Arginase Activity by an Evolutionary Nonconserved Motif

Abhishek Srivastava, Shiv Kumar Meena, Mashkoo Alam, Shahid M. Nayeem, Shashank Deep, and Apurba Kumar Sau

pp 508–519

Publication Date (Web): December 27, 2012 (Article)

DOI: 10.1021/bi301421v

Assembly of the SLIP1–SLBP Complex on Histone mRNA Requires Heterodimerization and Sequential Binding of SLBP Followed by SLIP1

Nitin Bansal, Minyou Zhang, Aishwarya Bhaskar, Patrick Itotia, EunHee Lee, Lyudmila S. Shlyakhtenko, TuKiet T. Lam, Andrew Fritz, Ronald Berezney, Yuri L. Lyubchenko, Walter F. Stafford, and Roopa Thapar

pp 520–536

Publication Date (Web): January 3, 2013 (Article)

DOI: 10.1021/bi301074r

Catalysis by Orotidine 5'-Monophosphate Decarboxylase: Effect of 5-Fluoro and 4'-Substituents on the Decarboxylation of Two-Part Substrates

Bogdana Goryanova, Krisztina Spong, Tina L. Amyes, and John P. Richard

pp 537–546

Publication Date (Web): December 31, 2012 (Article)

DOI: 10.1021/bi301650d

The Elevated Copper Binding Strength of Amyloid- β Aggregates Allows the Sequestration of Copper from Albumin: A Pathway to Accumulation of Copper in Senile Plaques

Dianlu Jiang, Lin Zhang, Gian Paola G. Grant, Christopher G. Dudzik, Shu Chen, Sveti Patel, Yuanqiang Hao, Glenn L. Millhauser, and Feimeng Zhou

pp 547–556

Publication Date (Web): December 13, 2012 (Article)

DOI: 10.1021/bi301053h

Identification of the Catalytic Mg²⁺ Ion in the Hepatitis Delta Virus Ribozyme

Ji Chen, Abir Ganguly, Zulaika Miswan, Sharon Hammes-Schiffer, Philip C. Bevilacqua, and Barbara L. Golden

pp 557–567

Publication Date (Web): January 11, 2013 (Article)

DOI: 10.1021/bi3013092
