

BIOCHEMISTRY

including biophysical chemistry & molecular biology

June 25, 2013

Volume 52, Issue 25

Pages 4285-4438

RAPID REPORTS

Quantitation of Recombinant Protein in Whole Cells and Cell Extracts via Solid-State NMR Spectroscopy

Erica P. Vogel and David P. Weliky

pp 4285-4287

Publication Date (Web): June 6, 2013 (Rapid Report)

DOI: 10.1021/bi4007034

 Section:

Biochemical Methods

ARTICLES

The Flavoenzyme Azobenzene Reductase AzoR from *Escherichia coli* Binds Roseoflavin Mononucleotide (RoFMN) with High Affinity and Is Less Active in Its RoFMN Form

Simone Langer, Shinobu Nakanishi, Tilo Mathes, Tanja Knaus, Alexandra Binter, Peter Macheroux, Tomoko Mase, Takuya Miyakawa, Masaru Tanokura, and Matthias Mack

pp 4288-4295

Publication Date (Web): May 28, 2013 (Article)

DOI: 10.1021/bi400348d

 Section:

Enzymes

Structural and Functional Implications of the Yeast High-Affinity Tryptophan Permease Tat2

Naoko Kanda and Fumiyoshi Abe

pp 4296-4307

Publication Date (Web): June 4, 2013 (Article)

DOI: 10.1021/bi4004638

 Section:

General Biochemistry

Solution Nuclear Magnetic Resonance Structure of the GATase Subunit and Structural Basis of the Interaction between GATase and ATPase Subunits in a *two-subunit-type* GMPS from *Methanocaldococcus jannaschii*

Rustam Ali, Sanjeev Kumar, Hemalatha Balaram, and Siddhartha P. Sarma

pp 4308-4323

Publication Date (Web): May 31, 2013 (Article)

DOI: 10.1021/bi400472e

 Section:

Enzymes

Free Cholesterol Determines Reassembled High-Density Lipoprotein Phospholipid Phase Structure and Stability

Matthew Auton, G. Randall Bassett, Baiba K. Gillard, and Henry J. Pownall

pp 4324-4330

Publication Date (Web): May 30, 2013 (Article)

DOI: 10.1021/bi4006732

 Section:

General Biochemistry

Intermediate P* from Soluble Methane Monooxygenase Contains a Diferrous Cluster

Rahul Banerjee, Katlyn K. Meier, Eckard Münck, and John D. Lipscomb

pp 4331-4342

Publication Date (Web): May 29, 2013 (Article)

DOI: 10.1021/bi400182y

 Section:

Enzymes

Roles of Four Conserved Basic Amino Acids in a Ferredoxin-Dependent Cyanobacterial Nitrate Reductase

Anurag P. Srivastava, Masakazu Hirasawa, Megha Bhalla, Jung-Sung Chung, James P. Allen, Michael K. Johnson, Jatindra N. Tripathy, Luis M. Rubio, Brian Vaccaro, Sowmya Subramanian, Enrique Flores, Masoud Zabet-Moghaddam, Kyle Stitle, and David B. Knaff

pp 4343-4353

Publication Date (Web): May 21, 2013 (Article)

DOI: 10.1021/bi400354n

 Section:

Enzymes

Prenylation and Membrane Localization of Cdc42 Are Essential for Activation by DOCK7

Yeyun Zhou, Jared L. Johnson, Richard A. Cerione, and Jon W. Erickson

pp 4354-4363

Publication Date (Web): May 30, 2013 (Article)

DOI: 10.1021/bi301688g

 Section:

General Biochemistry

Effect of Nitric Oxide on Naphthoquinone Toxicity in Endothelial Cells: Role of Bioenergetic Dysfunction and Poly(ADP-ribose) Polymerase Activation

Katarzyna A. Broniowska, Anne R. Diers, John A. Corbett, and Neil Hogg

pp 4364-4372

Publication Date (Web): May 29, 2013 (Article)

DOI: 10.1021/bi400342t

 Section:

Toxicology

Structural Analysis of Activated SgrAI–DNA Oligomers Using Ion Mobility Mass Spectrometry

Xin Ma, Santosh Shah, Mowei Zhou, Chad K. Park, Vicki H. Wysocki, and Nancy C. Horton

pp 4373-4381

Publication Date (Web): June 6, 2013 (Article)

DOI: 10.1021/bi3013214

 Section:

Enzymes

Quantum and Classical Simulations of Orotidine Monophosphate Decarboxylase: Support for a Direct Decarboxylation Mechanism

Alexandra Vardi-Kilshtain, Dvir Doron, and Dan Thomas Major

pp 4382-4390

Publication Date (Web): May 21, 2013 (Article)

DOI: 10.1021/bi400190v

 Section:

Enzymes

UDP-Galactopyranose Mutase in Nematodes

Darryl A. Wesener, John F. May, Elizabeth M. Huffman, and Laura L. Kiessling

pp 4391-4398

Publication Date (Web): May 22, 2013 (Article)

DOI: 10.1021/bi400264d

 Section:

Enzymes

Multiple Pathways Promote Dynamical Coupling between Catalytic Domains in *Escherichia coli* Prolyl-tRNA Synthetase

James M. Johnson, Brianne L. Sanford, Alexander M. Strom, Stephanie N. Tadayon, Brent P. Lehman, Arrianna M. Zirbes, Sudeep Bhattacharyya, Karin Musier-Forsyth, and Sanchita Hati

pp 4399-4412

Publication Date (Web): June 3, 2013 (Article)

DOI: 10.1021/bi400079h

Section:

Enzymes

Membrane Depth-Dependent Energetic Contribution of the Tryptophan Side Chain to the Stability of Integral Membrane Proteins

Heedeok Hong, Dennis Rinehart, and Lukas K. Tamm

pp 4413-4421

Publication Date (Web): May 29, 2013 (Article)

DOI: 10.1021/bi400344b

Section:

General Biochemistry

Structural Changes in the Hydrophobic Hinge Region Adversely Affect the Activity and Fidelity of the I260Q Mutator DNA Polymerase β

Chelsea L. Gridley, Sneha Rangarajan, Susan Firbank, Shibani Dalal, Joann B. Sweasy, and Joachim Jaeger

pp 4422-4432

Publication Date (Web): May 7, 2013 (Article)

DOI: 10.1021/bi301368f

Section:

Enzymes

Ligand Binding Kinetics of the Quorum Sensing Regulator PqsR

Martin Welch, James T. Hodgkinson, Jeremy Gross, David R. Spring, and Thomas Sams

pp 4433-4438

Publication Date (Web): May 28, 2013 (Article)

DOI: 10.1021/bi400315s

 **Section:**

General Biochemistry
