

7 articles in this issue

Formation and Ecological Features of the Parasite Communities of Redfish of the Genus *Sebastes* (Perciformes: Sebastidae) in the Arctic Ocean

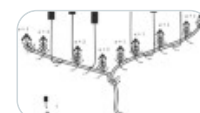

OriginalPaper | 16 September 2025 | Pages: 623 - 637

Stress Biomarkers in Common Coastal Amphipods and Bivalves: Salinity and Pollution Gradients (the White Sea)

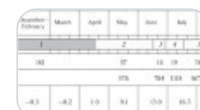

OriginalPaper | 16 September 2025 | Pages: 638 - 650

Models of Shoot Formation in Plants in Light of Molecular Genetic Data by a Case Study of *Minuartia* s.l. (Caryophyllaceae): I. Monopodial Models

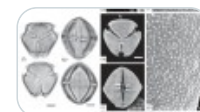

OriginalPaper | 16 September 2025 | Pages: 651 - 661

Bet-Hedging Strategies in *Heracleum mantegazzianum* Sommier & Levier (Apiaceae) Populations of the European Northeast Russia

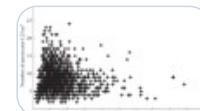

OriginalPaper | 16 September 2025 | Pages: 662 - 672

The Structure of Individual Variability of Pollen Morphological Features of the Genus *Physalis* L. (Solanaceae) and Methods of Its Interpretation (Genesis or Morphoses)

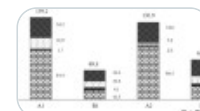

OriginalPaper | 16 September 2025 | Pages: 673 - 700

On Local Species Saturation of Synanthropic Plant Communities in the Western Caucasus and the Role of Alien Species in Its Achievement

OriginalPaper | 16 September 2025 | Pages: 701 - 714

Transformation of the Carbon Budget in Middle-Taiga Spruce Forests on Swamp-Podzolic Soils during Winter Clear Fellings

OriginalPaper | 16 September 2025 | Pages: 715 - 727
