Ecosystem Approach in Nature Conservation: Global Experience and Modern Challenges for Russia

S. V. Dudov, V. D. Dzizyurova ... M. V. Bocharnikov

OriginalPaper | 25 February 2026 | Pages: 1 – 14

The Pragmatic View on the Concept of Species in Vascular Plants

V. G. Onipchenko & A. S. Zernov

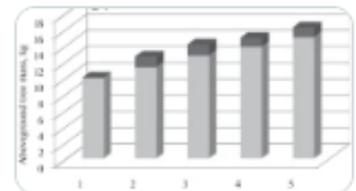

OriginalPaper | 25 February 2026 | Pages: 15 – 19

Productivity of Forest Ecosystems Depending on Ecological Conditions of Growth

S. I. Tarasov & N. V. Gerling

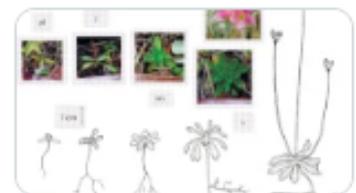

OriginalPaper | 25 February 2026 | Pages: 20 – 32

Vegetation Dormancy in the Dynamics of Alpine Short-Lived Perennials: All in Good Time

D. O. Logofet, E. S. Kazantseva ... Yu. V. Sofronov

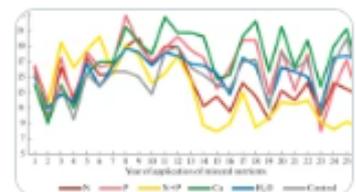

OriginalPaper | 25 February 2026 | Pages: 33 – 44

Are Soil Resources a Limiting Factor of Alpine Plant Seed Production?

Yu. V. Sofronov, D. M. Khomyakov ... V. G. Onipchenko

OriginalPaper | 25 February 2026 | Pages: 45 – 55

Nematode Communities in Soil under the Subcrown Space of Cultivated and Naturally Growing Siberian Larch, *Larix sibirica* Ledeb.

D. S. Kalinkina, A. A. Sushchuk & E. M. Matveeva

OriginalPaper | 25 February 2026 | Pages: 56 – 70

Pelagic Algae in the Barents Sea in the Ice Edge Area in the Spring

P. R. Makarevich, E. I. Druzhkova & V. V. Larionov

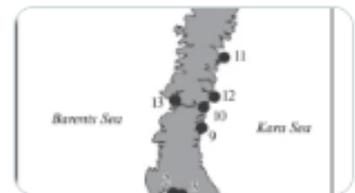

OriginalPaper | 25 February 2026 | Pages: 71 – 84

Distribution of Polychaetes in the Area of the Novaya Zemlya Archipelago in the Modern Period

D. R. Dikaeva

OriginalPaper | 25 February 2026 | Pages: 85 – 96

Ecological and Biological Features in the Dynamics of Recruitment and Spawning Stock Biomass of Gadids (Gadiformes: Gadidae) in the North Atlantic

S. P. Melnikov, A. S. Krovnin & G. P. Moury

OriginalPaper | 25 February 2026 | Pages: 97 – 110

Estimation of the Invasive Potential of Boreal Crustaceans in the Barents Sea in Conditions of Climate Changes

S. V. Bakanev

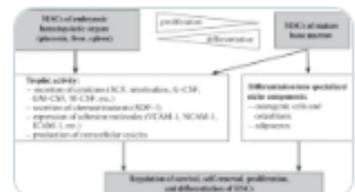

OriginalPaper | 25 February 2026 | Pages: 111 – 119

Mesenchymal Stromal Cells as Components of the Hematopoietic Microenvironment

O. V. Payushina, Z. E. Mirzazade ... T. A. Lomanovskaya

OriginalPaper | 25 February 2026 | Pages: 120 – 134

Sphagnum-Type Pine Forest in a Raised Bog: Is the Balance Model Balanced?

D. O. Logofet & A. A. Maslov

OriginalPaper | 25 February 2026 | Pages: 135 – 144
