

Volume 89, Issue 5

May 2025

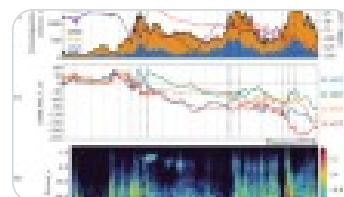

23 articles in this issue

Effect of Substorms on the Development of Magnetic Storms in Different MLT Sectors

V. V. MishinR. A. MarchukYu. V. Pensikh

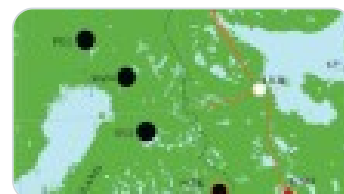

OriginalPaper | 22 June 2025 | Pages: 639 - 648

Pulses in Solar Wind Pressure and the Occurrence of Intense Geomagnetically Induced Currents

I. V. DespirakP. V. SetskoV. N. Selivanov

OriginalPaper | 22 June 2025 | Pages: 649 - 660

Ionospheric Manifestations of a Moderate Geomagnetic Storm on September 12, 2023, Based on Comprehensive Ionospheric Radiosonde Data

F. I. VybornovE. Yu. Zykovi. V. Krashenninnikov

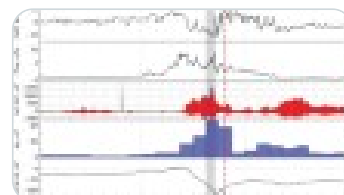

OriginalPaper | 22 June 2025 | Pages: 661 - 669

Occurrence of the Polar Tongue of Ionization and Associated Ionospheric Irregularities in Measurements of the Total Electron Content during the Geomagnetic Storm of November 7, 2022

I. I. Shagimuratovi. I. EfishovN. Yu. Tepenitsyna

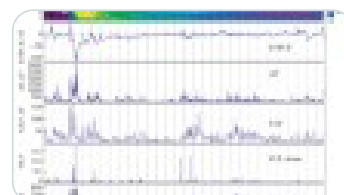

OriginalPaper | 22 June 2025 | Pages: 670 - 677

Growth of Relativistic Electron Fluxes in the Outer Radiation Belt, According to Data from the Arktika-M (No. 1) Satellite during Magnetic Storms in October–November 2021

V. B. BelakhovskyV. A. PilipenkoO. V. Kozyreva

OriginalPaper | 22 June 2025 | Pages: 678 - 686

Status of the PAIPS Project and Selected Results

K. F. SigaevaA. A. BelovJ. Szabelski

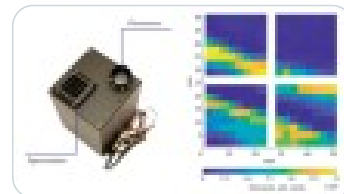

OriginalPaper | 22 June 2025 | Pages: 687 - 694

Spatial Structure of UV Microbursts in the Auroral Zone

K. D. ShchelkanovV. D. NikolaevaP. A. Klimov

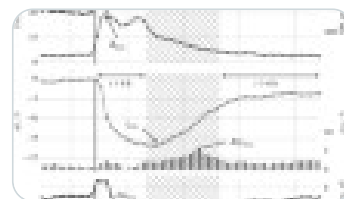

OriginalPaper | 22 June 2025 | Pages: 695 - 699

Study of Time Parameters of Interplanetary Disturbances with Magnetic Clouds

M. A. AbuninaA. V. BelovV. G. Yanke

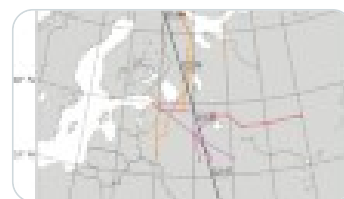

OriginalPaper | 22 June 2025 | Pages: 700 - 704

Electromagnetic Emissions from the ZEVS Transmitter and Northern Power Transmission Line, Registered on the CSES Satellite

N. V. SavelyevaV. A. PilipenkoS. Zhao

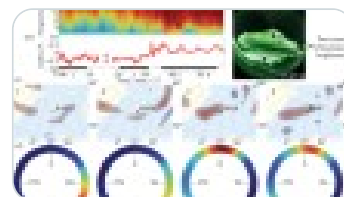

OriginalPaper | 22 June 2025 | Pages: 705 - 713

Analysis of the Spatial Dynamics of Auroral Hiss and Field-Aligned Currents, Based on Observations at the Barentsburg Observatory and the AMPERE Project

A. S. NikitenkoYu. V. FedorenkoN. G. Kleimenova

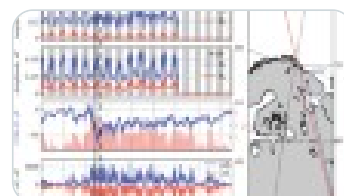

OriginalPaper | 22 June 2025 | Pages: 714 - 720

Interplay between the Amplitudes of VLF Transmitter Signals and High-Energy Electron Precipitation during Geomagnetic Disturbances

A. V. LarchenkoA. S. NikitenkoYu. V. Fedorenko

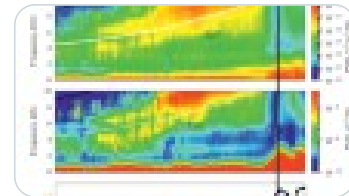

OriginalPaper | 22 June 2025 | Pages: 721 - 727

Observation and Generation of Two-Band Noise Emissions above and below Half the Electron Gyrofrequency near the Geomagnetic Equator

A. A. LyubchichE. E. TitovaD. R. Shklyar

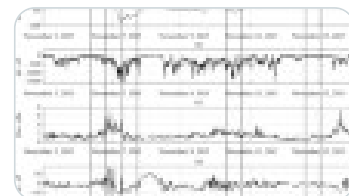

OriginalPaper | 22 June 2025 | Pages: 728 - 736

Effect of Electron Precipitation on the Position of the Outer Electron Radiation Belt

V. V. KalegaevA. R. IvanovaN. A. Vlasova

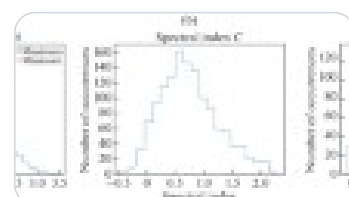

OriginalPaper | 22 June 2025 | Pages: 737 - 743

Fractal Characteristics of the Auroral Oval Structure, Based on Experimental Data

B. V. Kozelov

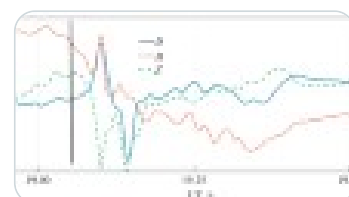

OriginalPaper | 22 June 2025 | Pages: 744 - 748

Geomagnetic and Ionospheric Effects of the Meteor Explosion over the Verkhnetulomsky Reservoir on December 19, 2014

S. M. Cherniakov

OriginalPaper | 22 June 2025 | Pages: 749 - 754

Estimation of the Average Energy of Auroral Electrons from the Intensity Ratio of 630.0 and 427.8 nm Emissions

Zh. V. DashkevichV. E. Ivanov

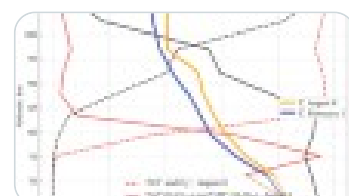

OriginalPaper | 22 June 2025 | Pages: 755 - 761

Seasonal and Daily Variations in the Ion Content of the Earth's Middle Atmosphere and Ionosphere

D. V. GrankinI. A. MironovaE. V. Rozanov

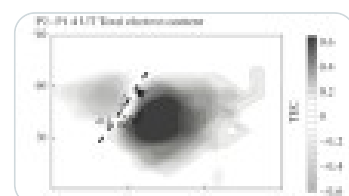

OriginalPaper | 22 June 2025 | Pages: 762 - 767

Spatial Features of the Ionospheric Disturbance Caused by a Meteorological Squall

F. S. BessarabYu. A. KurdyayevaM. V. Klimenko

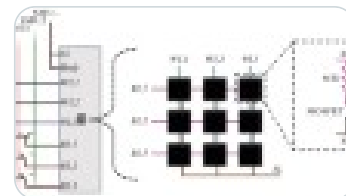

OriginalPaper | 22 June 2025 | Pages: 768 - 773

Influence of Parameters of Crossbars with STT-MRAM on the Accuracy of Analog Neural Network

K. V. KiselevaD. A. CherkasovK. A. Zvezdin

OriginalPaper | 22 June 2025 | Pages: 774 - 779

Study of the Features of Spin-Injection Generation of THz Radiation in Arrays of Magnetic Nanowires

S. G. ChigarevE. A. VilkovA. I. Panas

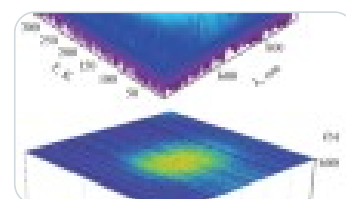

OriginalPaper | 22 June 2025 | Pages: 780 - 784

Thermally Stimulated Luminescence of InP/ZnS Colloidal Quantum Dots

S. S. SavchenkoA. S. Vokhmintsevl. A. Weinstein

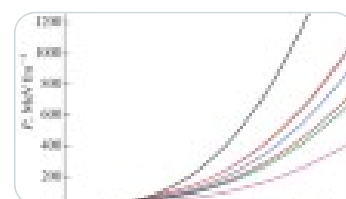

OriginalPaper | 22 June 2025 | Pages: 785 - 791

Features of Hyperonic Interactions in Neutron Stars

S. A. MikheevD. E. LanskojT. Yu. Tretyakova

OriginalPaper | 22 June 2025 | Pages: 792 - 797

Optimizing the Quantitative Composition of Scintillation Additives of Tellurium-Loaded Plastic Scintillators

I. B. NemchenokA. A. KlimenkoI. I. Kamnev

OriginalPaper | 22 June 2025 | Pages: 798 - 802
