

Volume 89, Issue 7

July 2025

25 articles in this issue

Method of Incoherent Decomposition in the Theory of Kinematic Dynamo

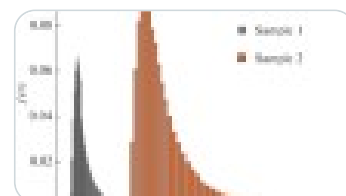

A. S. Il'ynA. V. KopyevK. P. Zybin

OriginalPaper | 16 July 2025 | Pages: 1039 - 1044

Influence of Magnetic Field on the Spectra of Optical Phenomena in Magnetic Fluids with Different Aggregative Stability

V. I. Vivchar'C. V. Yerin

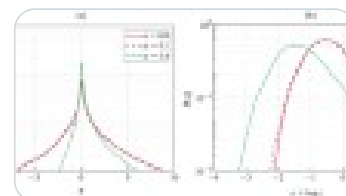

OriginalPaper | 16 July 2025 | Pages: 1045 - 1051

Non-Conservative Cascades in MHD Turbulence

P. FrickA. V. Shestakov

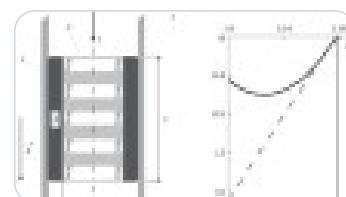

OriginalPaper | 16 July 2025 | Pages: 1052 - 1057

Experimental Verification of Couette–Poiseuille Flow of a Magnetic Fluid Filling the Coaxial Gap between the Inner Magnetic and Outer Nonmagnetic Walls

A. S. IvanovM. A. KoskovS. A. Somov

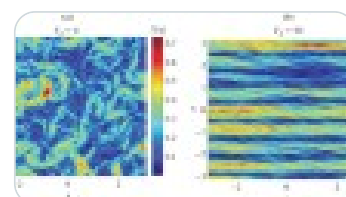

OriginalPaper | 16 July 2025 | Pages: 1058 - 1065

Correlation Analysis of the Interaction of Surface Magnetohydrodynamic Waves

M. A. GashkovE. A. Kochurin

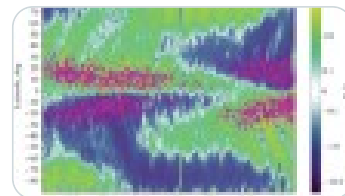

OriginalPaper | 16 July 2025 | Pages: 1066 - 1070

Formation of Near-Surface Toroidal Magnetic Fields of the Sun. Extended Solar Cycle

A. G. Tlatov

OriginalPaper | 16 July 2025 | Pages: 1071 - 1077

Features of the Temperature Dependence of the Deformation Processes of Microdroplets of Magneto-Sensitive Emulsion in Constant and Alternating Magnetic Fields

E. S. BeketovaYu. I. Dikanskii

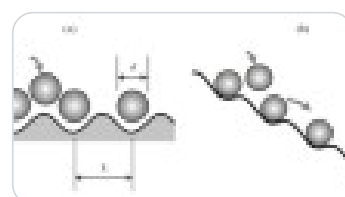

OriginalPaper | 16 July 2025 | Pages: 1078 - 1085

Dynamics of a Chain of Interacting Magnetic Particles in a One-Dimensional Periodic Energy Landscape

M. N. KourovA. E. SamoilovaA. V. Straube

OriginalPaper | 16 July 2025 | Pages: 1086 - 1092

Influence of the Magnetic Field on Photoinduced Thermocapillary Deformation of the Surface of a Magnetic Fluid Layer

V. D. MkrtchyanYu. I. Dikanskii

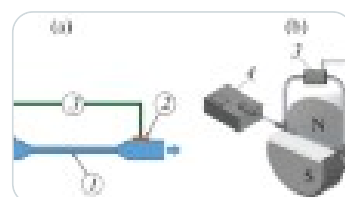

OriginalPaper | 16 July 2025 | Pages: 1093 - 1098

Comparative Analysis of Experimental Methods for Measuring the Magnetoviscous Effect

E. V. Shel'deshovaA. A. ChuraevP. A. Ryapolov

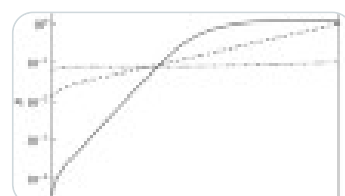

OriginalPaper | 16 July 2025 | Pages: 1099 - 1103

Magnetic Field Structures Generated by Accretion Disc Dynamo

E. A. MikhailovM. V. FrolovaE. N. Zhikhareva

OriginalPaper | 16 July 2025 | Pages: 1104 - 1110

Studying the Controlled Motion of a Magnetically Active Object in a Viscous Medium

A. V. MalchikovS. F. YatsunE. A. Sokolov

OriginalPaper | 16 July 2025 | Pages: 1111 - 1117

The Role of Magnetorotational Instability in the Occurrence of Magnetic Field on the Periphery of the Galactic Disk

T. T. KhasaevaE. A. Mikhailov

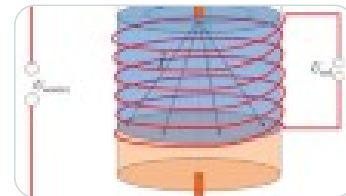

OriginalPaper | 16 July 2025 | Pages: 1118 - 1123

Vortex Flow of Electrolytes Caused by the Interaction of Electric Current and Magnetic Field in a Cylindrical Cell

E. A. MikhailovA. P. Stepanoval. O. Teplyakov

OriginalPaper | 16 July 2025 | Pages: 1124 - 1129

Numerical Study of the Effect of the Electrical Conductivity of a Pipe's Wall on the Flow of a Modeled Salt Melt during an Upward Flow in a Transverse Magnetic Field

R. F. RakhimovN. Yu. PyatnitskayaI. A. Belyaev

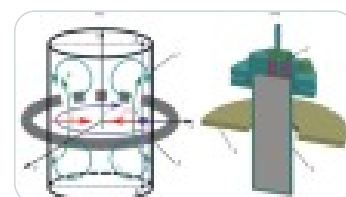

OriginalPaper | 16 July 2025 | Pages: 1130 - 1134

Unsteady Fluctuations of a Liquid Metal Flow in a Closed Volume inside an Alternating Magnetic Field

A. O. PoluyanovI. V. Kolesnichenko

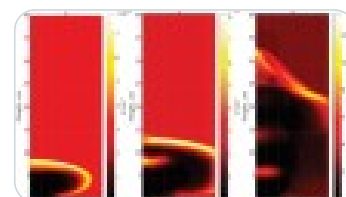

OriginalPaper | 16 July 2025 | Pages: 1135 - 1140

Laboratory and Numerical Modeling of the Structure of Shock Waves of Jets from Young Stars

I. Yu. KalashnikovV. S. BeskinV. I. Krauz

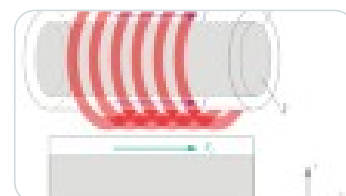

OriginalPaper | 16 July 2025 | Pages: 1141 - 1147

Characteristics of a Liquid Metal Flow Generated by a Travelling Magnetic Field in a Hollow Cylindrical Channel and a Channel with a Coaxial Insert

I. V. Kolesnichenkol. I. MitropolitE. Golbraikh

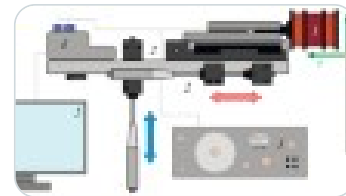

OriginalPaper | 16 July 2025 | Pages: 1148 - 1153

Induction Sensor for Controlling the Boundary Position and Electrical Conductivity of a Medium

A. A. BondarenkoV. A. EltishchevI. V. Kolesnichenko

OriginalPaper | 16 July 2025 | Pages: 1154 - 1160

On the Simplest Solutions of the MHD Equations for the Total Magnetic Energy in the Convective Zone of Sun and Earth

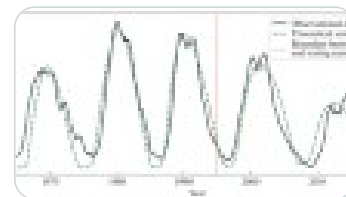

S. V. StarchenkoM. S. Kotelnikova

OriginalPaper | 16 July 2025 | Pages: 1161 - 1164

Comparison of the Single-Step and Multistep Approaches to Forecast of the Solar Activity Index

V. KisieliusE. A. IllarionovK. M. Kuzanyan

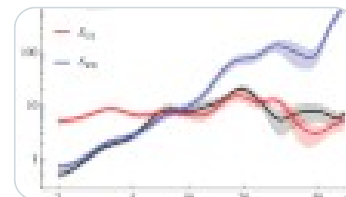

OriginalPaper | 16 July 2025 | Pages: 1165 - 1169

Synchronization Effect in a Nonlinear Solar Dynamo Model

R. A. StepanovA. V. GladkikhG. A. Tashkinov

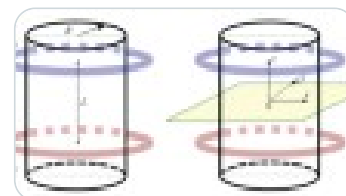

OriginalPaper | 16 July 2025 | Pages: 1170 - 1174

Interaction between Multi-Directional Rotating MHD Flows of Liquid Metal in a Cylindrical Channel

V. S. OzernykhE. GolbraikhI. V. Kolesnichenko

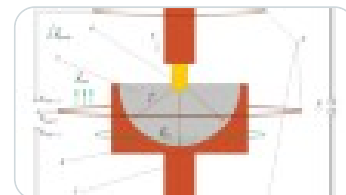

OriginalPaper | 16 July 2025 | Pages: 1175 - 1180

Surface Deformation Effect in the In–Ga–Sn Liquid Metal System with Hemispherical Electrodes

I. O. TeplyakovS. V. KiselyovaP. I. Polyakov

OriginalPaper | 16 July 2025 | Pages: 1181 - 1186

Study of Magnetic Hydrodynamics and Liquid Metal Heat Transfer inside a Pipe-in-Channel Heat Exchange System Applied to a Fusion Reactor Blanket Module

N. A. LuchinkinN. G. RazuvanovO. N. Polyanskaya

OriginalPaper | 16 July 2025 | Pages: 1187 - 1193
