**PEGMATITIC PHOSPHATE:  
A TRIBUTE TO  
FRANÇOIS FONTAN,  
ANDRÉ-MATHIEU FRANSOLET,  
AND PAUL KELLER**

VOLUME 52, part 2

APRIL 2014

PREFACE

Pegmatitic Phosphate: A Tribute to François Fontan, André-Mathieu Fransolet, and Paul Keller	121
Mineralogy and geochemistry of pegmatites on Mount Begbie, British Columbia	A. DIXON, J. CEMPÍREK, & L.A. GROAT 129
The late-stage miniflood of Ca in granitic pegmatites: An open-system acid-reflux model involving plagioclase in the exocontact	R.F. MARTIN & C. DE VITO 165
The global age distribution of granitic pegmatites	A. McCAULEY & D.C. BRADLEY 183
Tertiary pegmatite dikes of the Central Alps	A. GUASTONI, G. PENNACCHIONI, G. POZZI, A.M. FIORETTI, & J.M. WALTER 191
Geochemistry, mineralogy, and evolution of Li-Al micas and feldspars from the Mount Mica pegmatite, Maine, USA	K.L. MARCHAL, W.B. SIMMONS, A.U. FALSTER, K.L. WEBBER, & E. RODA-ROBLES 221
On the crystal-chemistry of a near-endmember triplite, $Mn^{2+}_2(PO_4)F$ , from the Codera Valley (Sondrio Province, Central Alps, Italy)	P. VIGNOLA, G.D. GATTA, F. HATERT, A. GUASTONI, & D. BERSANI 235
Extreme F activities in late pegmatitic events as a key factor for LILE and HFSE enrichment: The Ángel Pegmatite, Central Argentina	M. DEMARTIS, J.C. MELGAREJO, F. COLOMBO, P. ALFONSO, J.E. CONIGLIO, L.P. PINOTTI, & F.J. D'ERAMO 247
Iron+magnesium-bearing beryl from granitic pegmatites: An EMPA, LA-ICP-MS, Mössbauer spectroscopy, and powder XRD study	J. PŘIKRYL, M. NOVÁK, J. FILIP, P. GADAS, & M. VAŠINOVÁ GALIOVÁ 271
Mineral assemblages, compositional variation, and crystal structure of feruvitic tourmaline from a contaminated anatectic pegmatite at Mirošov near Strážek, Moldanubian Zone, Czech Republic	P. GADAS, M. NOVÁK, J. CEMPÍREK, J. FILIP, M. VAŠINOVÁ GALIOVÁ, L.A. GROAT, & D. VŠIANSKÝ 285
Samarskite-group minerals and alteration products: An example from the Julianna pegmatitic system, Piława Górna, SW Poland	A. PIECZKA, A. SZUSZKIEWICZ, E. SZEŁĘG, S. ILNICKI, K. NEJBERT, & K. TURNIAK 3003
On the geochemical character of primary Fe-Mn phosphates belonging to the triphylite-lithiophilite, grafonite-beusite, and triplite-zwieselite series: First results and implications for pegmatite petrogenesis	E. RODA-ROBLES, A. PESQUERA, S. GARCÍA DE MADINABEITIA, J.-I. GIL IBARGUCHI, J. NIZAMOFF, W. SIMMONS, A. FALSTER, & M.A. GALLISKI 321
Crystal chemistry of synthetic $M^{2+}Be_2P_2O_8$ ( $M^{2+} = Ca, Sr, Pb, Ba$ ) beryllophosphates	F. DAL BO, F. HATERT, & M. BAIJOT 337

The stability of Fe-rich alluaudites in granitic pegmatites: An experimental investigation of the Na-Fe <sup>2+</sup> -Fe <sup>3+</sup> (+PO <sub>4</sub> ) system	F. HATERT, M. BAIJOT, & F. DAL BO	351
Mineralogy and petrography of phosphate mineral associations from the João Pegmatite, Minas Gerais, Brazil	M. BAIJOT, F. HATERT, F. DAL BO, & S. PHILIPPO	373

GAC-MAC meeting will be rolled into the 2015 Joint Assembly to be held in Montreal, May 3-7, 2015

The Joint Assembly will be the annual meeting for GAC-MAC-CGU as well as the spring meeting for AGU.

Please contact Bill Minarik ([william.minarik@mcgill.ca](mailto:william.minarik@mcgill.ca)), meeting MAC Lead Representative, or the Local Organizing committee LOC ([Montreal2015.esp@mcgill.ca](mailto:Montreal2015.esp@mcgill.ca)) with questions or suggestions.

The Local Organizing committee is also soliciting proposals for Field Trips, Workshops, and Short Courses. Field Trips can be before or after the meeting, and can range from one- to multi-day excursions. Workshops and short courses can be before, during, or after the meeting. We especially encourage workshops accessible either to students or to professional continuing education. All field trip, workshop, and short course proposals should be sent to the LOC ([Montreal2015.esp@mcgill.ca](mailto:Montreal2015.esp@mcgill.ca)) by July 15, 2014.
