

CYTOLOGY AND GENETICS

TSitologiya i genetika (Cytology and Genetics) 2016, v 50, Issue 3

- Demkovych A.E., Glukhov A.Z., Privalikhin S.N., Ostapko V.M., Makogon I.V., Pirkо Ya.V., Blume Ya.B.* Variation of microsatellite loci in *Vincetoxicum Wolf.* species in the south-east of Ukraine 3-11
- Yasinskiy Y., Omelyanchuk L.V., Zhuk O.V., Kozeretska I.A.* Mutagenesis testing using the *LacZ* reporter activity of the reparation gene *mus209* in *Drosophila melanogaster* 12-15
- Kulibaba R.A., Liashenko Y.V.* Influence of the PCR artifacts on the genotyping efficiency by the microsatellite loci using native polyacrylamide gel electrophoresis 16-23
- Kozub N.A., Sozinov I.A., Niniyeva A.K., Tverdokhleb Ye.V., Blume Ya.B., Boguslavskii R.L.* Genetic marking of glume colour in *Triticum spelta* L. var. *caeruleum* using gliadins 24-29
- Kens O., Vishtak N., Acopyan H., Bergtravm V.* Allelic polymorphism C-590T of the gene *IL-4* as the most possible genetic marker of high predisposition to development of recurrent episodes of acute obstructive bronchitis in children 30-35
- Kmyta V.V., Garbuzova V.Y., Prystupa E.N., Prystupa L.N.* Bcl1 polymorphism of glucocorticoid receptor gene in patients with bronchial asthma with obesity 36-41
- Chernushyn S.Yu., Livshits L.A.* Analysis of *CYP21A2* gene mutations in patients from Ukraine with congenital adrenal hyperplasia 42-45
- Sabadashka M., Sybirna N.* Reduction of radiationinduced nitratative stress in leucocytes and kidney cells of rats upon administration of polyphenolic complex concentrates from red wine 46-56
- Dranitsina A.S., Dvorshchenko K.O., Morgaienko O.O., Ostapchenko L.I.* Expression of *Tlr2*, *Defa*, *Muc2* genes in rat duodenal upon long-term gastric hypacidity and with multiprobiotic correction 57-65
- Zemlianskykh N.G.* Effect of substances with cryoprotective properties on surface marker CD44 in human erythrocytes 66-79
