

Volume 88, Issue 1

February 2026

ISSN 1061-3840

8 articles in this issue

Sorption of Thiocyanate Ions on Cr–Polymer Composite and Obtaining a New Sorbent

OriginalPaper | 02 February 2026 | Pages: 1 - 10

Enhanced Stability and Dispersion of Aqueous TiO_2 Nanoparticles via Acrylic Acid Surface Modification

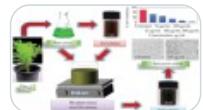

OriginalPaper | 28 November 2025 | Pages: 11 - 20

Magnetite Nanoparticle Modified *Pennisetum glaucum*, an Eco-friendly, Efficient, and Low-cost Biosorbent for the Removal of Three Cationic Dyes from Waste Water

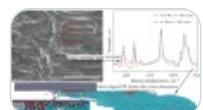

OriginalPaper | 28 November 2025 | Pages: 21 - 41

Green Synthesis of Reduced Graphene Oxide Nanosheets for In-Vitro Anticancer Activity

OriginalPaper | 28 November 2025 | Pages: 42 - 51

Tribological Properties and Microstructure Changes of UHMWPE Surface Induced by Water Absorption

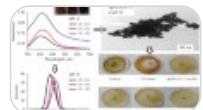

OriginalPaper | 02 February 2026 | Pages: 52 - 67

Characterization and Biological Activity of Silver Nanoparticles Stabilized by Aqueous Extracts of *Rubus* spp. Leaves

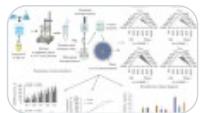

OriginalPaper | 02 February 2026 | Pages: 68 - 79

Eco-Responsive Biosynthesis of Silver Nanoparticles Using *Chenopodium album*: Influence of Environmental Parameters and pH

OriginalPaper | 02 February 2026 | Pages: 80 - 97

**Exploring the Potential of Microemulsions with Curcumin loaded in Linseed and Fish Oils:
Synthesis and Characterization**

OriginalPaper | 02 February 2026 | Pages: 98 - 113
