Kinetics of Tin–Zinc Alloy Electrodeposition from Alkaline Electrolytes: Diffusion–Kinetic Control and Optimization of Process Parameters

S. Yu. Kireev, A. Z. Yangurazova & S. N. Kireeva

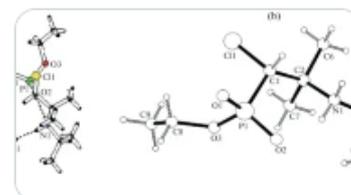

OriginalPaper | 17 February 2026 | Pages: 83 – 92

Enhancement of the Synthetic Potential of the Imine Version of the Pudovik Reaction: New Types of Organic Phosphorus Compounds and New Reactions

M. B. Gazizov, R. A. Khairullin ... N. N. Gazizova

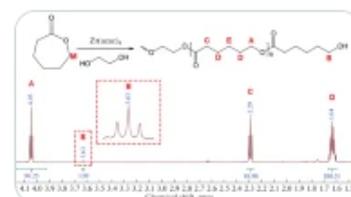

OriginalPaper | 17 February 2026 | Pages: 93 – 118

Synthesis of Poly(ϵ -caprolactone) Carried Out with Zirconium Acetylacetonate: Polymerization Kinetics and Molecular Weight of the Polymers

K. T. Kalinin, T. M. Sokolov & N. G. Sedush

OriginalPaper | 17 February 2026 | Pages: 119 – 128

Compatibilization of EPDM/NBR Blends Using 1-Naphthol: Rheological, Morphological, and Sealing Performance Analysis

F. A. Amirli, R. F. Khankishiyeva & A. F. Mammadova

OriginalPaper | 17 February 2026 | Pages: 129 – 137

The Effect of Phthalocyanine Pigments on the Crosslinking Kinetics and Physico–Mechanical Properties of a Composite Material Based on LDPE

I. P. Khudiakova, A. A. Ponomareva & E. G. Popovskikh

OriginalPaper | 17 February 2026 | Pages: 138 – 142
