

Volume 524, Issue 2

October 2025

ISSN 0012-0133

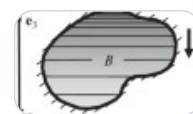

23 articles in this issue

Automated Method for Merging Earthquake Catalogs with Duplicate Identification

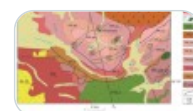

SEISMOLOGY | 21 September 2025 | Article: 45

Investigation of the Development of Instability of Viscoelastic Geosystems Based on the Study of Stability and Instability of Elastic Systems of Comparison

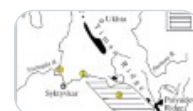

GEOPHYSICS | 21 September 2025 | Article: 44

The Lower Proterozoic Metasandstones of the Sakukan Formation of the Udokan Complex of the South of the Siberian Craton—A Unique Object for the Early Precambrian Paleomagnetism?

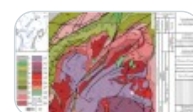

TECTONICS | 21 September 2025 | Article: 43

Maximum Depositional Age of Pre-Middle Paleozoic Terrigenous Rocks of the Vychegda Trough (Northeast of the East European Platform): Results of U–Pb Dating of Detrital Zircons

STRATIGRAPHY | 21 September 2025 | Article: 42

First Results of U–Pb (LA-ICP-MS) Dating of Acidic Volcanic Rocks from Basal Horizons of the Upper Precambrian of the Subpolar Urals

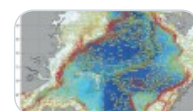

GEOLOGY | 21 September 2025 | Article: 41

First Find of Ordovician Granitoids in Senyavin Granite-Metamorphic Dome, East Chukotka: Age Substantiation and Composition Affinities

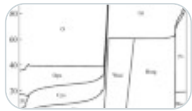

GEOLOGY | 21 September 2025 | Article: 40

Internal Tide Near Critical Latitudes in the Norwegian Sea

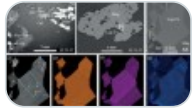

OCEANOLOGY | 15 September 2025 | Article: 39

The Effect of the Mineralogical Composition of the Martian Mantle on the Model Value of the Chandler Wobble Period

GEOFYSICS | 15 September 2025 | Article: 38

First Discovery of Loparite-(Ce) in Carbonatites of the Guli Complex (Polar Siberia, Russia): Zoning of Crystals, Isomorphic Substitutions, and Genetic Features

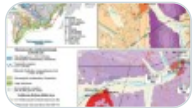

MINERALOGY | 15 September 2025 | Article: 37

Graphite-Rare-Earth Mineralization of Picrites of the Ariadne Ultrabasite-Basite Massif (Promorye)

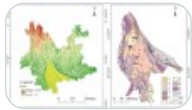

MINERALOGY | 15 September 2025 | Article: 36

Late Cretaceous Rapakivi Granites and Associating Rocks in the Evolution of the Okhotsk-Chukotka Active Margin

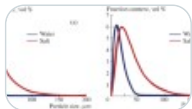

PETROLOGY | 15 September 2025 | Article: 35

Research on Hydrothermal Rock Reaction and Hydrochemical Evolution Process: A Case Study of Yunnan Simao Basin

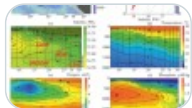

GEOCHEMISTRY | 15 September 2025 | Article: 34

Effect of Salt Solutions on Rheological Properties and Water Retention of Soils

SOIL SCIENCE | 05 September 2025 | Article: 33

Propagation of Intermediate Waters in the North Atlantic

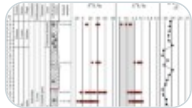

OCEANOLOGY | 05 September 2025 | Article: 32

The Occurrence of Suidae (Artiodactyla, Mammalia) in the Late Villafranchian Fauna of Crimea (Taurida Cave, Early Pleistocene) and the “Suid Gap” Hypothesis

PALEONTOLOGY | 05 September 2025 | Article: 31

The First Discovery of Isotopic ($\delta^{34}\text{S}$, $\Delta^{33}\text{S}$) Sulfur Anomalies in Authigenic Sulfides from the Permian–Triassic Boundary Deposits of Siberia

Middle Eocene Carbonate Deposition and Sea-level Dynamics: Insights from the Zindapir Area, Eastern Sulaiman Range, Pakistan

STRATIGRAPHY | 05 September 2025 | Article: 29

King's Trough: An Ancient Analogue of the Terceira Rift (North Atlantic)

GEOLOGY | 05 September 2025 | Article: 28

Soil Organic Carbon Pools: Isolation Methods, Sizes, and Ratios

SOIL SCIENCE | 05 September 2025 | Article: 27

Experimental Validation of a Long-Range Underwater Acoustic Communication Method in the Sea of Japan

OCEANOLOGY | 05 September 2025 | Article: 26

Beltir Earthquake, February 15, 2025 ($M_s = 5.7$, Altai Mountains): Results of Geological and Seismological Research in the Nearby Zone

SEISMOLOGY | 05 September 2025 | Article: 25

Geochemistry and Petrogenesis of Kong Chro Granitoid, Kontum Massif, Central Vietnam

GEOCHEMISTRY | 05 September 2025 | Article: 24

The First Detailed $\delta^{13}\text{C}_{\text{org}}$ Record in the Asselian Deposits of Western Verkhoyanie, Northeastern Russia

STRATIGRAPHY | 05 September 2025 | Article: 23
