ECOLOGICAL MODELLING

An International Journal on
**ECOLOGICAL MODELLING AND
SYSTEMS ECOLOGY**

Editor-in-chief
Brian D. Fath

CONTENTS

(Abstracts/contents list published in: Biological Abstracts, Cambridge Scientific Abstracts, Elsevier BIOBASE/Current Awareness in Biological Sciences, Current Contents AB & ES, Ecological Abstracts, Ecology Abstracts, Environment Abstracts, Environmental Periodicals Bibliography (EPB)); Also covered in the abstract and citation database SCOPUS®.
Full text available on ScienceDirect®.

Articles

Modeling the impact of rangeland management on forage production of sagebrush species in arid and semi-arid regions of Iran M. Azimi, Gh.A. Heshmati (Golestan, Iran), M. Farahpour (Tehran, Iran), M. Faramarzi (Isfahan, Iran) and K.C. Abbaspour (Dubendorf, Switzerland).....	1
Homogenised model linking microscopic and macroscopic dynamics of a biofilm: Application to growth in a plug flow reactor C. Deygout (Montpellier, France), A. Lesne (Bures-sur-Yvette, France and Paris, France), F. Campillo and A. Rapaport (Montpellier, France).....	15
Ecological risk assessment on the system scale: A review of state-of-the-art models and future perspectives S. Chen, B. Chen (Beijing, China) and B.D. Fath (Towson, MD, USA and Laxenburg, Austria).....	25
Mice in Wonderforest: Understanding mast seeding through individual-based modelling L. Tamburino and G. Bravo (Italy).....	34
Development and evaluation of a nutrient cycling extension for the LANDIS-II landscape simulation model S.L. Karam, P.J. Weisberg (Reno, NV, USA), R.M. Scheller (Portland, OR, USA), D.W. Johnson and W.W. Miller (Reno, NV, USA).....	45
Application of TRIPLEX model for predicting <i>Cunninghamia lanceolata</i> and <i>Pinus massoniana</i> forest stand production in Hunan Province, southern China M. Zhao, W. Xiang, X. Deng, D. Tian, Z. Huang (Changsha, China), X. Zhou (Montreal, Canada), G. Yu, H. He (Beijing, China) and C. Peng (Montreal, Canada and Changsha, China).....	58
On the evidence of an Allee effect in herring populations and consequences for population survival: A model-based study B. Saha (Berhampore, India), A.R. Bhowmick, J. Chattopadhyay and S. Bhattacharya (Kolkata, India).....	72
A hierarchical patch mosaic ecosystem model for urban landscapes: Model development and evaluation C. Zhang (Xinjiang, China and AZ, USA), J. Wu (AZ, USA; Hohhot, China and Tempe, AZ, USA), N.B. Grimm (AZ, USA and Tempe, AZ, USA), M. McHale (AZ, USA and NC, USA) and A. Buyantuyev (Hohhot, China and Tempe, AZ, USA).....	81
A 3D model for light interception in heterogeneous crop:weed canopies: Model structure and evaluation N.M. Munier-Jolain, S.H.M. Guyot and N. Colbach (Dijon, France).....	101
Estimating stop over duration in the presence of trap-effects R. Choquet, Y. Guédon, A. Besnard (Montpellier, France), M. Guillemain (Arles, France) and R. Pradel (Montpellier, France).....	111
Application of hierarchical biphasic growth models to long-term data for snapping turtles D.P. Armstrong (Palmerston North, New Zealand) and R.J. Brooks (Guelph, Canada).....	119
Increased mortality is predicted of <i>Inachis io</i> larvae caused by Bt-maize pollen in European farmland N. Holst (Slagelse, Denmark), A. Lang (Basel, Switzerland), G. Lövei (Slagelse, Denmark) and M. Otto (Bonn, Germany).....	126
Impacts of maximum sustainable yield policy to prey-predator systems T.K. Kar and B. Ghosh (Howrah, India).....	134
Can controlled bow hunts reduce overabundant white-tailed deer populations in suburban ecosystems? M. Weckel and R.F. Rockwell (New York, NY, USA).....	143
Maximizing the use of energy in cities using an open systems network approach D.N. Bristow and C.A. Kennedy (Toronto, Canada).....	155
Understanding the mechanisms underlying the distribution of microendemic montane frogs (<i>Brachycephalus</i> spp., Terrarana: Brachycephalidae) in the Brazilian Atlantic Rainforest M.R. Pie, A.L.S. Meyer, C.R. Firkowski, L.F. Ribeiro and M.R. Bornschein (Paraná, Brazil).....	165
Implications of leaky boundaries for compartmentalised control of pathogens: A modelling case study for bacterial kidney disease in Scottish salmon aquaculture A.G. Murray (Aberdeen, UK).....	177
The interchangeability of autotrophic and heterotrophic nitrogen sources in Scleractinian coral symbiotic relationships: A numerical study M.S.M. Gustafsson, M.E. Baird and P.J. Ralph (Sydney, Australia).....	183
A model of vegetation dynamics of <i>Spartina alterniflora</i> and <i>Phragmites australis</i> in an expanding estuarine wetland: Biological interactions and sedimentary effects Q. Wang (Shanghai, China), S.E. Jørgensen (Copenhagen, Denmark), J. Lu (Shanghai, China), S.N. Nielsen (Copenhagen, Denmark) and J. Zhang (Shanghai, China).....	195
Simulation of monthly dissolved organic carbon concentrations in small forested watersheds C. Zhang (New Brunswick, Canada and Halifax, Canada), R.C. Jamieson (Halifax, Canada), F.-R. Meng (New Brunswick, Canada), R.J. Gordon (Guelph, Canada) and C.P.-A. Bourque (New Brunswick, Canada).....	205
Evaluating the performance of individual-based animal movement models in novel environments K.S. Watkins and K.A. Rose (Baton Rouge, LA, USA).....	214

(Contents continued from OBC)

Simulated effects of reduced spring flow from the Edwards Aquifer on population size of the fountain darter (<i>Etheostoma fonticola</i>) M.A. Mora, W.E. Grant, L. Wilkins and H.-H. Wang (College Station, TX, USA)	235
Chronic wasting disease: Possible transmission mechanisms in deer A. Potapov, E. Merrill, M. Pybus, D. Coltman and M.A. Lewis (Edmonton, Canada)	244
A systematic approach for re-assembly of crop models: An example to simulate pea growth from wheat growth M. Adam (Wageningen, The Netherlands and Montpellier, France), J. Wery (Montpellier, France), P.A. Leffelaar (Wageningen, The Netherlands), F. Ewert (Bonn, Germany), M. Corbeels (Montpellier, France) and H. Van Keulen (Wageningen, The Netherlands)	258
Ecological and social modeling for migration and adhesion pattern of a benthic diatom S. Cao, J. Wang, D. Li and D. Chen (Beijing, PR China)	269
Predicting the short-time-scale variability of chlorophyll a in the Elbe River using a Lagrangian-based multi-criterion analog model X. Zhao, H. Zhang and X. Tao (Hangzhou, China)	279
The energetics of ecological succession: A logistic model of entropic output K.R. Skene (Angus, UK)	287
Spatio-temporal dynamics of growth and survival of Lesser Sandeel early life-stages in the North Sea: Predictions from a coupled individual-based and hydrodynamic-biogeochemical model Z. Gurkan, A. Christensen (Charlottenlund, Denmark), M. Maar, E.F. Møller (Roskilde, Denmark), K.S. Madsen (Copenhagen, Denmark), P. Munk and H. Mosegaard (Charlottenlund, Denmark)	294
Network properties and keystone assessment in different intertidal communities dominated by two ecosystem engineer species (SE Pacific coast): A comparative analysis M. Ortiz, L. Campos, F. Berrios (Antofagasta, Chile), F. Rodriguez (Zapopan, Mexico), B. Hermosillo and J. González (Antofagasta, Chile)	307
A reaction-diffusion model for the control of <i>Eldana saccharina</i> Walker in sugarcane using the sterile insect technique L. Potgieter, J.H. van Vuuren (Matieland, South Africa) and D.E. Conlong (Matieland, South Africa and KwaZulu-Natal, South Africa)	319
Host plant-mediated effects of climate change on the occurrence of the Alcon blue butterfly (<i>Phengaris alcon</i>) A. Cormont, G.W. Wierger Wamelink, R. Jochem, M.F. WallisDeVries and R.M.A. Wegman (Wageningen, The Netherlands)	329
Population-level consequences of spatially heterogeneous exposure to heavy metals in soil: An individual-based model of springtails M. Meli (Roskilde, Denmark), A. Auclerc (Brunoy, France), A. Palmqvist (Roskilde, Denmark), V.E. Forbes (Lincoln, NE, USA) and V. Grimm (Leipzig, Germany and Potsdam, Germany)	338
Development of a broadened cognitive mapping approach for analysing systems of practices in social-ecological systems F.M. Vanwindekkens (Libramont, Belgium and Louvain-la-Neuve, Belgium), D. Stilmant (Libramont, Belgium) and P.V. Baret (Louvain-la-Neuve, Belgium)	352
A topo-dynamical perspective to evaluate indirect interactions in trophic webs: New indexes M.D. Torres-Alruiz, D.J. Rodríguez (Caracas, Venezuela)	363
Responses of European anchovy vital rates and population growth to environmental fluctuations: An individual-based modeling approach H. Pethybridge (Plouzané, France), D. Roos (Centre de Sète, France), V. Loizeau (Plouzané, France), L. Pecquerie (Santa Barbara, CA, USA) and C. Bacher (Plouzané, France)	370
Optimal shape of an anthill dome: Bejan's constructal law revisited R.G. Kasimova (Oman), Yu.V. Obnosov, F.B. Baksht (Russia) and A.R. Kacimov (Oman)	384
Simulating mechanisms for dispersal, production and stranding of small forage fish in temporary wetland habitats S. Yurek, D.L. DeAngelis (Coral Gables, FL, USA), J.C. Trexler (North Miami, FL, USA), F. Jopp (Giessen, Germany) and D.D. Donalson (Jacksonville, FL, USA)	391
