Articles

Historic disturbance regimes promote tree diversity only under low browsing regimes
in eastern deciduous forest

Demography and growth of subadult savanna trees: interactions of life history, size,
fire season, and grassy understory

Why do mixotrophic plants stay green? A comparison between green and
achlorophyllous orchid individuals in situ

Volume 83, Issue 1 (February 2013)

Articles

3 Historic disturbance regimes promote tree diversity only under low browsing regimes in eastern deciduous forest

Tim Nutton, Alejandro A. Royo, Mary Beth Adams, Walter P. Carson

19 Landscape-scale patterns in tree occupancy and abundance in subarctic Alaska

Carl A. Roland, Joshua H. Schmidt, E. Fleur Nicklen

49 Postfire changes in forest carbon storage over a 300-year chronosequence of *Pinus contorta*-dominated forests

Daniel M. Kashian, William H. Romme, Daniel B. Tinker, Monica G. Turner, Michael G. Ryan

67 Demography and growth of subadult savanna trees: interactions of life history, size, fire season, and grassy understory

Patricia A. Werner, Lynda D. Prior

95 Why do mixotrophic plants stay green? A comparison between green and achlorophyllous orchid individuals in situ

M. Roy, C. Gonneau, A. Rocheteau, D. Berveiller, J.-C. Thomas, C. Damesin, M.-A. Selosse

119 Multiple predator species alter prey behavior, population growth, and a trophic cascade in a model estuarine food web

Pamela L. Reynolds, John F. Bruno
