ORIGINAL PAPERS

Transient and steady-state performance analysis of hybrid powered DC series motor via DC shunt and PV generators with maximum power point tracking
M.S. Widyan · A.M. Harb · O.M. Al-Oquili 99

Static VAR compensator using recurrent neural network
R. Rahmani · M.F. Othman · A.A. Shojaei · R. Yusof 109

Design procedure of simple and accurate model of electric double layer capacitor (EDLC) targeting fast verification purposes of heat transfer simulations
P. Spanik · M. Frivaldsky · P. Drgona · J. Cuntala · N. Glapa 121

A simple implementation of power mismatch STATCOM model into current injection Newton–Raphson power-flow method
S. Kamel · F. Jurado · D. Vera 135

Scattering characteristics of FSSs with triangular conducting elements
A. Pekmezci · T. Ege 145

Analytical study of the impacts of an SSSC and its power flow controller on torsional interaction
R. Pillay Carpanen · B.S. Rigby 157

Complex diffusion process for noise reduction
E. Nadernejad · A. Barari 175

**New SFRA measurement interpretation methodology
for the diagnosis of power transformers**

J.R. Secue · E.E. Mombello 183

**A control scheme to fulfill the grid-code under various
fault conditions in the grid-connected wind turbines**

H.G. Jeong · K.B. Lee 199
