An International Magazine of Mineralogy, Geochemistry, and Petrology

*Elements* is published jointly by the Mineralogical Society of America, the Mineralogical Society of Great Britain and Ireland, the Mineralogical Association of Canada, the Geochemical Society, The Clay Minerals Society, the European Association of Geochemistry, the International Association of GeoChemistry, the Société Française de Minéralogie et de Cristallographie, the Association of Applied Geochemists, the Deutsche Mineralogische Gesellschaft, the Società Italiana di Mineralogia e Petrologia, the International Association of Geoanalysts, the Polskie Towarzystwo Mineralogiczne (Mineralogical Society of Poland), the Sociedad Española de Mineralogía, the Swiss Society of Mineralogy and Petrology, the Meteoritical Society, and the Japan Association of Mineralogical Sciences. It is provided as a benefit to members of these societies.

*Elements* is published six times a year. Individuals are encouraged to join any one of the participating societies to receive *Elements*. Institutional subscribers to any of the following journals—*American Mineralogist*, *Clay Minerals*, *Clays and Clay Minerals*, *Mineralogical Magazine*, and *The Canadian Mineralogist*—also receive one copy of *Elements* as part of their 2014 subscription. Institutional subscriptions are available for US\$160 (US\$175 non-US addresses) a year in 2014. Contact the executive editor (tremblpi@ete.inrs.ca) for information.

## ABOUT THE COVER:

Drilling the Devonian Marcellus Shale for natural gas in Pennsylvania, USA.

If industry best-practices are followed, gas-shale exploration, drilling, and exploitation can occur in both rural and urban settings with minimal impact on the environment. PHOTO
