PDAC 2013 Roundup

APRIL 2013 | www.mining-media.com

FEATURES

Despite Challenging Conditions, Record Crowd Turns Up for PDAC 2013

Annual prospectors and developers convention showcases the best in Canada 48

Multiplication Factor

Software designed for mining allow companies to do more with less—as in less time, money and labor 56

Pumps and Pipelines Keep Mines on the Move

From dewatering their workings to handling tailings from the mill, mines rely on pumps and pipework to keep fluids flowing 68

Haulage & Loading 2013

In addition to the latest technology for truck-shovel mining, this technical conference also offers new ideas as far as safety and equipment training 80

G-Resources' Martabe Mine and Mill Ramps Up to Full Capacity

Indonesia's newest mining operation achieves significant milestones 88
