FEATURES

Equipment Selection is Key for Productivity in Underground Loading and Haulage

Making all the right choices can significantly reduce cost per ton, increase worker safety and minimize required maintenance......46

Taking Stock of Site Security

Effective mine security requires preparation, awareness and prevention. Here's a look at some of the latest services and products that can help mine operators meet the challenge.56

Optimizing Crusher Control

Crushers are energy-hungry pieces of equipment, so optimizing drive and control systems makes good economic sense58

Laos Gives PanAust Perfect Kick-start

Capitalizing on recovery improvement program, PanAust evolves from a junior explorer into a producer with a market cap of \$1.1 billion......64

Media Selection and Installation—The Fast Track to Screening Success

The correct choice of media can be critical to the effectiveness of screening. Wire, rubber and polyurethane are all contenders, while suppliers have been focusing on making screen-panel maintenance simpler and quicker.72

Real-time DPM Monitoring

NIOSH develops a new tool for assessing and controlling exposure78

Uzbekistan Plans to Increase Gold Production

State-owned gold miners are rebuilding old works and opening new mines to grow production in the face of retiring capacity......82

Conveyor System Helps Mexican Gold Mine Improve Efficiencies

A properly engineered overland conveyor system helps a mine eliminate long truck hauls88

Three Steps to Improving Mine Performance

Combining elements from performance improvement programs while focusing on the people side of the equation proves successful for some underground operations92

Managing Environmental Risk with Mitigation Banks

Mitigation banks are an increasingly popular way for resource companies to meet environmental obligations in a more predictable and timely fashion102

Special Report: West Africa's Mining Industry

A rising mining market emerges in a challenging global context......115

LEADING DEVELOPMENTS

Project Partners Sign Foundation Agreement for \$20B Simandou

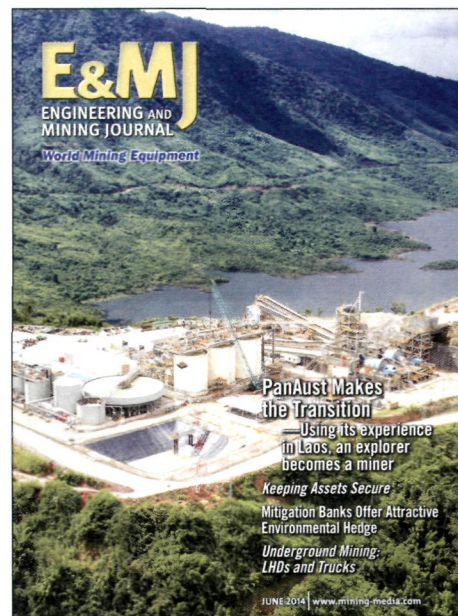

Iron-ore project4

Nyrstar Proceeding with Port Pirie Redevelopment5

Barrick Facing \$6B Pascua-Lama Lawsuit5

BHP Billiton Reviewing its Nickel West Business6

Rio Alto and Sulliden Combine to Create Peru-focused Company6

This month, E&MJ covers PanAust's transition from a junior explorer to a successful mining company, which can be largely attributed to its successful operations in Laos. On the cover: the Ban Houayxai gold-silver project in Laos. (Photo courtesy of PanAust)
