Sibanye Discusses its Next
Challenge: Burnstone

JULY 2014 | www.mining-media.com

FEATURES

The Surveyor's 21st Century Tools

Laser-based scanners, GPS and sophisticated software are all available to today's mine survey office, supplementing more traditional instruments. E&M J reports on some of the more popular systems on the market.28

Block Caving: Mining Specialization

While block caving is not a new concept, it needs the right combination of geology and technology to make it work successfully.....32

Diesel Technology Update 2014

Engine suppliers are nearing the final stage of compliance with increasingly strict diesel emissions standards. One of their remaining challenges is to assure equipment OEMs and owners that new, cleaner-burning engines don't come with a big bump in installation or ownership costs.....38

Copper Mining Arrives in Arica

Chile's Minera Pampa Camarones and South Korea's Samsung have built a new copper production complex in a non-traditional mining area, using environmentally friendly water and power technology.....42

Sibanye Sets its Sights on Burnstone

Sibanye Gold began this year with the enviable reputation as the world's lowest cost producer, but the recent acquisition of cash-burning Burnstone may change that50

Special Report: Ontario's Mining Industry

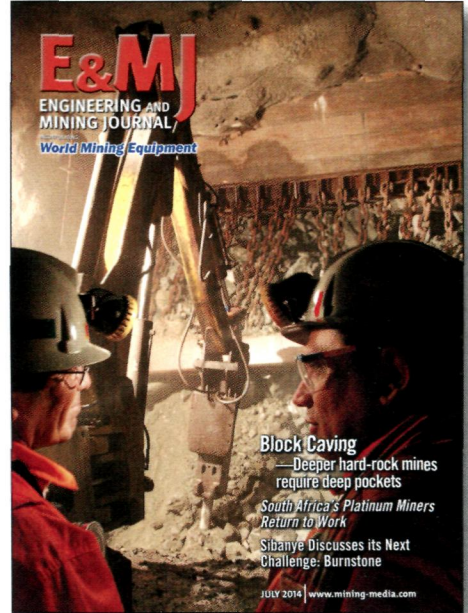

Exploring new frontiers at home while expanding the limits of possibility on a global level53

LEADING DEVELOPMENTS

- Five-month South Africa Platinum Strike Ends4
- PwC Assesses Tough Times in the Mining Industry4
- First Quantum Acquiring Lumina Copper and its Taca Taca Copper Project5
- Augusta Agrees to Increased Hudbay Acquisition Offer6
- Turquoise Hill Disputes Mongolian Tax Claim.....6

AROUND THE WORLD

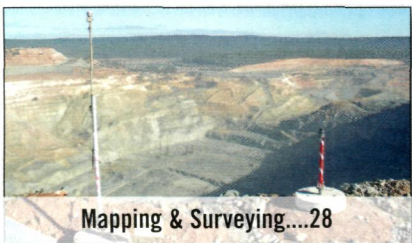

- U.S. & Canada: Updated Study Pegs Brucejack Project Cost at \$747 Million8
- Latin America: Santo Domingo Project Study Predicts \$1.7B Cost, 18-year Life....14
- Australia/Oceania: Fortescue Signs Contracts for Four Large Ore Carriers.....16
- Africa: Tiger Resources Starts Copper Cathode Production at Kipoi18
- Asia: Study Supports Processing of Alacer's Çöpler Sulphides20
- Exploration Roundup: Antofagasta Earning-in to Argonaut's Zambia Project....22

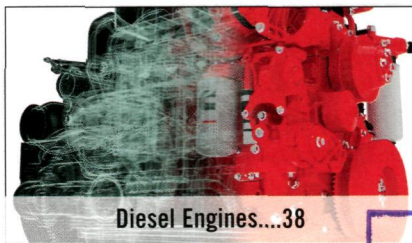

This month E&M J offers comprehensive coverage of block-cave mining. Requiring a large initial investment in development work, the complex underground mining technique yields low-cost ore if properly executed. On the cover, a drawpoint at Codelco's El Teniente mine in Chile—one of the oldest and more famous block-cave mines. (Photo courtesy of Codelco)
