## FEATURES

**Iron Ore Market Review 2014: Prospects Persist for Oversupply and Weak Prices**  
*After a precipitous fall in 2014, iron ore prices should stabilize—and even rise modestly—in the near future, but shifting global economic trends and the shadow of significant oversupply may squash any hopes for quick market rejuvenation* .....28

**Proximity Detection Aids Minesite Awareness**  
*Technology is catching up with rising industry awareness of the need for proximity detection and collision avoidance systems in surface mining* .....34

**The Race for Graphite is on in Africa**  
*Increasing demand and Chinese mine closures spur activity around graphite projects in Mozambique and Madagascar*.....44

**Pumps for Tough Applications**  
*E&MJ takes a look at pumps that can handle acidic and abrasive fluids in mining and mineral processing*.....48

**Automated Dozer Concept Aims to Cut IPCC Downtime**  
*Shifting conveyors in a large IPCC system is time consuming, hard on equipment, and difficult for operators to accomplish quickly and efficiently. Dozer automation could alleviate these problems*.....52

**Why Miners Report (or do not report) Safety-relevant Information**  
*Although focused on U.S. coal miners, a recent study highlights some major injury-reporting concerns that may apply to the industry in general*.....56

**Keeping the Cost of Tailings Storage From Becoming a Liability**  
*The importance of a properly engineered TSF cannot be underestimated* .....60
