Volume 113 • Number 2 • February 2013

European Journal of Applied Physiology

 Springer

European Journal of Applied Physiology

Volume 113, Issue 2, February 2013

ISSN: 1439-6319 (Print) 1439-6327 (Online)

In this issue (29 articles)

1. Original Article

Short-term plasticity of human spinal inhibitory circuits after isometric and isotonic ankle training

Traci Jessop, Alyssa DePaola, Lauren Casaletto... Pages 273-284

2. Original Article

Effects of repeated bouts of squatting exercise on sub-maximal endurance running performance

Dean Burt, Kevin Lamb, Ceri Nicholas, Craig Twist Pages 285-293

3. Original Article

Role of nitric oxide and adenosine in the onset of vasodilation during dynamic forearm exercise

Darren P. Casey, Essa A. Mohamed... Pages 295-303

4. Original Article

Post-exercise cold water immersion: effect on core temperature and melatonin responses

Elisa Robey, Brian Dawson, Shona Halson... Pages 305-311

5. Original Article

Adaptations in muscle metabolic regulation require only a small dose of aerobic-based exercise

Howard J. Green, Margaret Burnett, Ira Jacobs... Pages 313-324

6. Original Article

Neuromuscular adaptations during combined strength and endurance training in endurance runners: maximal versus explosive strength training or a mix of both

R. S. Taipale, J. Mikkola, V. Vesterinen... Pages 325-335

7. Original Article

The verification phase and reliability of physiological parameters in peak testing of elite wheelchair athletes

Christof A. Leicht, Keith Tolfrey, John P. Lenton... Pages 337-345

8. Erratum

Erratum to: The verification phase and reliability of physiological parameters in peak testing of elite wheelchair athletes

Christof A. Leicht, Keith Tolfrey, John P. Lenton... Page 347

9. Original Article

The effect of acute exercise in hypoxia on flow-mediated vasodilation

Keisho Katayama, Osamu Fujita, Motoyuki Iemitsu... Pages 349-357

10. Original Article

Hot conditions improve power output during repeated cycling sprints without modifying neuromuscular fatigue characteristics

Olivier Girard, D. J. Bishop, S. Racinais Pages 359-369

11. Original Article

Consecutive days of cold water immersion: effects on cycling performance and heart rate variability

Jamie Stanley, Jonathan M. Peake, Martin Buchheit Pages 371-384

12. Original Article

The sustainability of $\dot{V}O_{2\max}$: effect of decreasing the workload

Véronique Billat, Hélène Petot, Jason R. Karp... Pages 385-394

13. Original Article

Relationship between thigh muscle mass and augmented pressure from wave reflections in healthy adults

Jeremy P. Loenneke, Christopher A. Fahs... Pages 395-401

14. Original Article

Destrin deletion enhances the bone loss in hindlimb suspended mice

Feng Shuang, Yu Sun, Huai-He Yang, Yin-Chu Shao... Pages 403-410

15. Original Article

Acute supra-therapeutic oral terbutaline administration has no ergogenic effect in non-asthmatic athletes

Anthony M. J. Sanchez, Fabio Borrani... Pages 411-418

16. Original Article

Increases in $\dot{V}O_{2\max}$ with “live high–train low” altitude training: role of ventilatory acclimatization

Daniel P. Wilhite, Timothy D. Mickleborough... Pages 419-426

17. Original Article

Specific training improves skeletal muscle mitochondrial calcium homeostasis after eccentric exercise

Ben Rattray, Martin Thompson, Patricia Ruell... Pages 427-436

18. Original Article

Muscle gearing during isotonic and isokinetic movements in the ankle plantarflexors

Avleen Randhawa, Meghan E. Jackman... Pages 437-447

19. Original Article

The effect of acute exercise on collagen turnover in human tendons: influence of prior immobilization period

L. Moerch, J. Pingel, M. Boesen, M. Kjaer... Pages 449-455

20. Original Article

Comparative and reliability studies of neuromechanical leg muscle performances of volleyball athletes in different divisions

Chi-Pang Un, Kwan-Hwa Lin, Tzyy-Yuang Shiang... Pages 457-466

1. Original Article

Time-dependent changes in glucose and insulin regulation during intermittent hypoxia and continuous hypoxia

Euhan J. Lee, Laura C. Alonso, Darko Stefanovski... Pages 467-478

2. Original Article

Fatigue is specific to working muscles: no cross-over with single-leg cycling in trained cyclists

Steven J. Elmer, Markus Amann, John McDaniel... Pages 479-488

3. Original Article

The effects of simulated obstructive apnea and hypopnea on arrhythmic potential in healthy subjects

Giovanni Camen, Christian F. Clarenbach... Pages 489-496

4. Original Article

Changes in postural sway as a function of prolonged walking

Kathleen S. Thomas, Bonnie L. VanLunen... Pages 497-508

5. Original Article

Inflammatory markers in skeletal muscle of older adults

Marissa K. Caldwell, David Cameron-Smith... Pages 509-517

6. Original Article

Exercise and diet-induced weight loss attenuates oxidative stress related-coronary vasoconstriction in obese adolescents

Zhaohui Gao, Marsha Novick, Matthew D. Muller... Pages 519-528

7. Original Article

is not altered by self-pacing during incremental exercise

Weerapong Chidnok, Fred J. DiMenna... Pages 529-539

8. Letter to the Editor

$\dot{V}O_{2\max}$ is altered by self-pacing during incremental exercise

Alexis R. Mauger Pages 541-542

9. Letter to the Editor

TeX is not altered by self-pacing during incremental exercise: reply to the letter of Alexis R. Mauger

Weerapong Chidnok, Fred J. DiMenna... Pages 543-544
