Editorial

- 77 *Actinobacteria* within soils: capacities for mutualism, symbiosis and pathogenesis
H. Schrempf

MiniReview

- 79 Pre-sporulation stages of *Streptomyces* differentiation: state-of-the-art and future perspectives
P.Yagüe, M.T. López-García, B. Rioseras, J. Sánchez and Á. Manteca

Research Letters

- 89 A *Streptomyces*-specific member of the metallophosphatase superfamily contributes to spore dormancy and interaction with *Aspergillus proliferans*
J. Lamp, M. Weber, G. Cingöz, D.O. de Orué Lucana and H. Schrempf
- 98 Identification and expression of stressosomal proteins in *Mycobacterium marinum* under various growth and stress conditions
B.M.F. Petterson, R.G. Nitharwal, S. Das, K.P.R. Behra, E. Benedik, U.T. Arasu, N.M. Islam, S. Dasgupta, A. Bhattacharya and L.A. Kirsebom
- 106 Elucidation of haem-binding sites in the actinobacterial protein HbpS
A.E. Torda, M.R. Groves, I. Wedderhoff and D.O. de Orué Lucana
- 113 Trehalose phosphate synthases OtsA1 and OtsA2 of *Rhodococcus opacus* ICP
D. Tischler, S. Niescher, S.R. Kaschabek and M. Schlömann
- 123 High level of antibiotic production in a double polyphosphate kinase and phosphate-binding protein mutant of *Streptomyces lividans*
M. Díaz, L. Sevillano, S. Rico, F. Lombo, A.F. Braña, J.A. Salas, C. Mendez and R.I. Santamaría
- 130 The gene cluster *aurI* for the angucycline antibiotic auricin is located on a large linear plasmid pSA3239 in *Streptomyces aureofaciens* CCM 3239
R. Novakova, R. Knirschova, M. Farkasovsky, L. Feckova, A. Rehakova, E. Mingyar and J. Kormanec
- 138 A transposon-based strategy to identify the regulatory gene network responsible for landomycin E biosynthesis
L. Horbal, V. Fedorenko, A. Bechthold and A. Luzhetskyy
- 147 Surface hydrophobicity and roughness influences the morphology and biochemistry of streptomycetes during attached growth and differentiation
D. Petráčková, K. Buriánková, E. Tesařová, Š. Bobková, S. Bezoušková, O. Benada, O. Kofroňová, J. Janeček, P. Halada and J. Weiser
- 157 Taxonomic and functional diversity of *Streptomyces* in a forest soil
C. Bontemps, M. Toussaint, P.-V. Revol, L. Hotel, M. Jeanbille, S. Uroz, M.-P. Turpault, D. Blaudez and P. Leblond
- 168 *Bacillus* and *Streptomyces* were selected as broad-spectrum antagonists against soilborne pathogens from arid areas in Egypt
M. Köberl, E.M. Ramadan, M. Adam, M. Cardinale, J. Hallmann, H. Heuer, K. Smalla and G. Berg

MiniReviews

- 179 Aspects of nitrogen-fixing *Actinobacteria*, in particular free-living and symbiotic *Frankia*
A. Sellstedt and K.H. Richau
- 187 The leafy gall syndrome induced by *Rhodococcus fascians*
E. Stes, I. Francis, I. Pertry, A. Dolzblasz, S. Depuydt and D. Vereecke
