CONTENTS

(Abstracted/Indexed in: *Curr. Contents/Eng. Technol. Appl. Sci. Curr. Contents/Phys. Chem. Earth Sci., Sci. Cit. Index, Phys. Abstr., ASCA, SciVerse* Also covered in the abstract and citation database SCOPUS®. Full text available on ScienceDirect®)

Full Length Articles

Modeling the characterization of the plus fractions by using continuous distribution function J. Duan, W. Wang, H. Liu and J. Gong (Beijing, PR China)	1-10
Measurement and correlation of solubility of N-chlorobenzenesulfonamide sodium and N-chloro-4-toluenesulfonamide sodium in binary ethanol + propan-2-ol mixtures from 278.00 K to 323.00 K Q. Wang, W. Fang, Y. Li, H. Xiao and Z. Wang (Tianjin, People's Republic of China)	11-17
Phase behaviour of ionic liquid 1-butyl-1-methylpyrrolidinium tris(pentafluoroethyl)trifluorophosphate with alcohols, water and aromatic hydrocarbons U. Domańska (Warsaw, Poland and Durban, South Africa), E.V. Lukoshko and M. Królikowski (Warsaw, Poland)	18-22
Equation for the solvent activity correlation in ternary electrolyte solutions A. Ricardini, F. Passamonti and A.C. Chialvo (Santa Fe, Argentina)	23-27
Experimental study and modelling of volumetric properties, viscosities and refractive indices of binary liquid mixtures benzene + PEG 200/PEG 400 and toluene + PEG 200/PEG 400 J.M. Vuksanović, E.M. Živković, I.R. Radović, B.D. Djordjević, S.P. Šerbanović and M.Lj. Kijevčanin (Belgrade, Serbia)	28-44
Flash points of partially miscible aqueous-organic mixtures predicted by UNIFAC group contribution methods H.-J. Liaw (Kaohsiung, Taiwan and Taichung, Taiwan) and T.-P. Tsai (Taichung, Taiwan)	45-59
Isobaric vapor-liquid equilibrium and isothermal surface tensions of 2,2'-oxybis[propane] + 2,5-Dimethylfuran A. Mejía (Concepción, Chile), M.B. Oliveira (Aveiro, Portugal), H. Segura, M. Cartes (Concepción, Chile) and J.A.P. Coutinho (Aveiro, Portugal)	60-67
Activity model and consistent thermodynamic features for acetic acid-isoamyl alcohol-isoamyl acetate-water reactive system W. Osorio-Viana, M. Duque-Bernal, J.D. Quintero-Arias, I. Dobrosz-Gómez, J. Fontalvo and M.Á. Gómez-García (Manizales, Colombia)	68-80
