Site-specific <i>versus</i> pantropical allometric equations: Which option to estimate the biomass of a moist central African forest? A. Ngomanda, N.L. Engone Obiang (Libreville, Gabon), J. Lebamba (Franceville, Gabon), Q. Moundounga Mavouroulou (Libreville, Franceville, Gabon), H. Gomat (Pointe Noire, Congo), G.S. Mankou, J. Loumeto (Brazzaville, Congo), D. Midoko Iponga (Libreville, Gabon), F. Kossi Ditsouga (Libreville, Franceville, Gabon), R. Zinga Koumba, K.H. Botsika Bobé, C. Mikala Okouyi, R. Nyangadouma (Libreville, Gabon), N. Lépengué, B. Mbatchi (Franceville, Gabon) and N. Picard (Libreville, Gabon), (Montpellier Cedex 5, France)	1
Dynamics of carbon and nitrogen accumulation and C:N stoichiometry in a deciduous broadleaf forest of deglaciated terrain in the eastern Tibetan Plateau Y. Yang (Chengdu, Beijing, PR China), G. Wang (Chengdu, PR China), H. Shen (Beijing, PR China), Y. Yang, H. Cui and Q. Liu (Chengdu, PR China)	10
Transmission of genetic variation from the adult generation to naturally established seedling cohorts in small forest stands of pedunculate oak (<i>Quercus robur</i> L.) G. Vranckx, H. Jacquemyn (Leuven, Belgium), J. Mergeay, K. Cox (Geraardsbergen, Belgium), V. Kint, B. Muys and O. Honnay (Leuven, Belgium)	19
Does expected future landscape condition support proposed population objectives for boreal birds? C.L. Mahon, E.M. Bayne, P. Sólymos, S.M. Matsuoka (Edmonton, Canada), M. Carlson (Calgary, Canada), E. Dzus (Boyle, Canada), F.K.A. Schmiegelow and S.J. Song (Edmonton, Canada)	28
Late-successional and old-growth forest carbon temporal dynamics in the Northern Forest (Northeastern USA) J.S. Gunn (Brunswick, USA), M.J. Ducey (Durham, USA) and A.A. Whitman (Brunswick, USA)	40
Tree regeneration under high levels of wild ungulates: The use of chemically vs. physically-defended shrubs R. Perea and L. Gil (Madrid, Spain)	47
Farmers, flames, and forests: Historical ecology of pastoral fire use and landscape change in the French Western Pyrenees, 1830–2011 M.R. Coughlan (Athens, USA)	55
Factors influencing the <i>wind-bark beetles'</i> disturbance system in the course of an <i>Ips typographus</i> outbreak in the Tatra Mountains P. Mezei (Zvolen, Slovak Republic), W. Grodzki (Kraków, Poland), M. Blaženec and R. Jakuš (Zvolen, Slovak Republic), (Suchdol, Czech Republic)	67
Tropical rainforest biodiversity and aboveground carbon changes and uncertainties in the Selva Central, Peru P. Gonzalez (Berkeley, USA), B. Kroll (Rioja, Peru) and C.R. Vargas (Lima, Peru)	78
Restoring dead wood in forests diversifies wood-decaying fungal assemblages but does not quickly benefit red-listed species H. Pasanen, K. Junninen and J. Kouki (Joensuu, Finland)	92
Relationships between ramet and genet dynamics in two clonal palms K.I. Kouassi (Abidjan 02, Cote d'Ivoire), (Paris Cedex 05, France), S. Barot (Paris Cedex 05, France), K.-R. Laossi (Abidjan 01, Cote d'Ivoire), J. Gignoux (Paris Cedex 05, France) and I.A. Zoro Bi (Abidjan 02, Cote d'Ivoire)	101
Understanding recruitment failure in tropical tree species: Insights from a tree-ring study M. Vlam (Wageningen, The Netherlands), P.J. Baker (Victoria, Australia), S. Bunyavejchewin (Bangkok, Thailand), G.M.J. Mohren and P.A. Zuidema (Wageningen, The Netherlands)	108
Forest regeneration in gaps seven years after partial harvesting in riparian buffers of boreal mixedwood streams A.U. Mallik, D.P. Kreutzweiser and C.M. Spalvieri (Ontario, Canada)	117
Airborne LiDAR reveals context dependence in the effects of canopy architecture on arthropod diversity J. Müller (Grafenau, Freising, Germany), S. Bae (Seoul, Republic of Korea), J. Röder (Marburg, Germany), A. Chao (Hsin-Chu, Taiwan) and R.K. Didham (Crawley, Floreat, Australia)	129
Influence of harvesting on understory vegetation along a boreal riparian-upland gradient R.L. MacDonald (Thunder Bay, London, Canada), H.Y.H. Chen (Thunder Bay, Canada), B.J. Palik (MN, USA) and E.E. Prepas (Thunder Bay, Canada)	138
Long-term response of yellow-poplar to thinning in the southern Appalachian Mountains T.L. Keyser (Asheville, United States) and P.M. Brown (Fort Collins, United States)	148
Association between resistance to an introduced invasive pathogen and phenolic compounds that may serve as biomarkers in native oaks B.A. McPherson (Berkeley, USA), S.R. Mori (Albany, USA), S.O. Opiyo, A.O. Conrad (Columbus, USA), D.L. Wood (Berkeley, USA) and P. Bonello (Columbus, USA)	154

Converting native shrub forests to Chinese chestnut plantations and subsequent intensive management affected soil C and N pools Y. Li, J. Zhang (Lin'an, China), S.X. Chang (Edmonton, Canada), P. Jiang, G. Zhou, Z. Shen, J. Wu, L. Lin, Z. Wang and M. Shen (Lin'an, China)	161
The reproductive ecology of <i>Ulmus laevis</i> Pallas in a transformed habitat M. Venturas, N. Nanos and L. Gil (Madrid, Spain)	170
Comparison of short term low, moderate, and high severity fire impacts to aquatic and terrestrial ecosystem components of a southern USA mixed pine/hardwood forest D.J. Brown, W.H. Nowlin, E. Ozel, I. Mali, D. Episcopo, M.C. Jones and M.R.J. Forstner (San Marcos, USA)	179
Assessing the risk of exotic gene flow from <i>Eucalyptus globulus</i> plantations to native <i>E. ovata</i> forests M.J. Larcombe, R.C. Barbour, R.E. Vaillancourt and B.M. Potts (Hobart, Australia)	193
Amounts of logging residues affect planting microsites: A manipulative study across northern forest ecosystems A. Trottier-Picard (QC, Canada), E. Thiffault (Quebec, Canada), A. DesRochers (QC, Canada), D. Paré (QC, Quebec, Canada), N. Thiffault (QC, Québec, Canada) and C. Messier (QC, Montréal, Ripon, Canada)	203
Spatial relationship between <i>Phytophthora ramorum</i> and roads or streams in Oregon tanoak forests E. Peterson, E. Hansen (Corvallis, USA) and A. Kanaskie (Salem, USA)	216
Is randomized branch sampling suitable to assess wood volume of temperate broadleaved old-growth forests? G. Chirici (Pesce (IS), Italy), N. Puletti (Arezzo, Italy), R. Salvati (Viterbo, Italy), F. Arbi, C. Zolli (Firenze, Italy) and P. Corona (Arezzo, Italy)	225
Patterns of resource use efficiency in relation to intra-specific competition, size of the trees and resource availability in ponderosa pine J. Gyenge and M.E. Fernández (Buenos Aires, Argentina)	231
Climate, weather, and recent mountain pine beetle outbreaks in the western United States E.P. Creeden, J.A. Hicke and P.C. Buotte (Moscow, USA)	239
Long-term growth changes of common beech (<i>Fagus sylvatica</i> L.) are less pronounced on highly productive sites W. Aertsen, E. Janssen (Leuven, Belgium), V. Kint (Leuven, Brussels, Belgium), J.-D. Bontemps (Nancy, Champenoux, France), J. Van Orshoven (Leuven, Belgium) and B. Muys (Leuven, Belgium), (Barcelona, Spain)	252
Extinction thresholds for Sapotaceae due to forest cover in Atlantic Forest landscapes M.M. Lima (Jequie, Brazil) and E. Mariano-Neto (Salvador, Brazil)	260
Rethinking local adaptation: Mind the environment! M.J. Salmela (Laramie, USA)	271
The spatial and temporal dynamics of species interactions in mixed-species forests: From pattern to process D.I. Forrester (Freiburg, Germany)	282
Corrigendum to "Influence of forest structure and experimental green-tree retention on northern flying squirrels (<i>Glaucomys sabrinus</i>) abundance" [Forest Ecol. Manage. 285 (2012) 187–194] G.L. Holloway (Edmonton, Canada), W.P. Smith (Olympia, USA), C.B. Halpern, R.A. Gitzen (Seattle, USA), C.C. Maguire (Corvallis, USA) and S.D. West (Seattle, USA)	293
