

Volume 63, Issue 7

July 2025

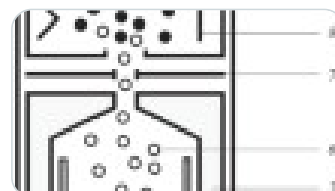

6 articles in this issue

Evaporation Features of the Melts of Ca–Al–Inclusions in Chondrites: Experimental Data and Their Implications

S. I. Shornikov O. I. Yakovlev

OriginalPaper | 12 August 2025 | Pages: 551 - 561

Geochronology, Geochemistry, and Geological Implications of the Early Paleozoic Penggongmiao Granite Batholith in the Western Part of Cathaysia Block, Hunan Province, South China

Xinjie Yang Zhanbo Li Yadong Xu

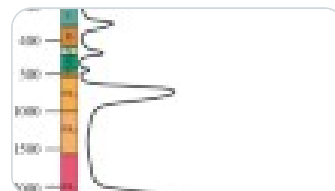

OriginalPaper | 15 June 2025 | Pages: 562 - 578

History of Iron Accumulation in the Precambrian and Phanerozoic

A. D. Savko

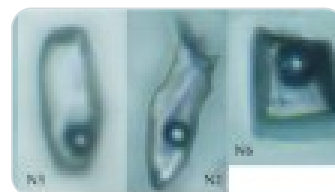

OriginalPaper | 12 August 2025 | Pages: 579 - 600

Conditions during the Formation of Carbon-Bearing Rocks, Transonega Region

Z. A. Kotelnikova A. R. Kotelnikov Yu. B. Shapovalov

OriginalPaper | 12 August 2025 | Pages: 601 - 613

Assessment of Kinetic Conditions of Quartz Geothermometer Application: Experiment and Modeling

V. A. Alekseyev

OriginalPaper | 12 August 2025 | Pages: 614 - 622

Remnants of Early Carboniferous Intra-Oceanic Arc Sediment in South Qiangtang Accretionary Complex, Tibet: Implications for the Subduction and Accretion of the Paleo-Tethys Ocean

Junwei CaoDian LiZhengyong Liu

OriginalPaper | 15 June 2025 | Pages: 623 - 639
