

Volume 63, Issue 9
September 2025

Devoted to Extraterrestrial Matter Research

6 articles in this issue

Metal-Rich Ungrouped Chondrite Northwest Africa 13202

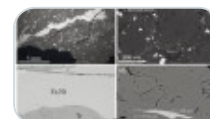

OriginalPaper | 23 September 2025 | Pages: 763 - 777

Phosphates in the Impact Associations of the Chelyabinsk Meteorite

OriginalPaper | 23 September 2025 | Pages: 778 - 799

Unique Mineral Association and the First Finding of Extraterrestrial Ferrodymolybdenite in the Kunya-Urgench H5 Chondrite

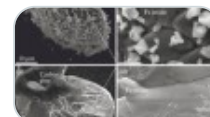

OriginalPaper | 23 September 2025 | Pages: 800 - 809

Thermodynamic Properties of Oxide Compounds Occurring in Ca–Al-Rich Inclusions

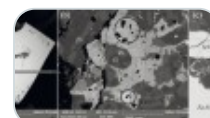

OriginalPaper | 23 September 2025 | Pages: 810 - 836

Fe-Oxide Microspherule Fragment from Chang'E-5 Soil Sample: Possible Evidence for Lunar Fumarole Activity

OriginalPaper | 23 September 2025 | Pages: 837 - 847

Carbonaceous Chondrite Clast Captured in Collision Event by the Elga Iron Meteorite (Group IIE)

OriginalPaper | 23 September 2025 | Pages: 848 - 859
