

# THE HOLOCENE

an interdisciplinary journal  
focusing on recent  
environmental change

VOLUME 23, NUMBER 3, 2013

Editor: John A Matthews

# Contents

## Research papers

- Arctic climate over the past millennium: Annual and seasonal responses to external forcings 321  
*E Crespin, H Goosse, T Fichefet, A Mairesse and Y Sallaz-Damaz*
- Late-Holocene fluctuations of the Bear River Glacier, northern Coast Ranges of British Columbia, Canada 330  
*G Osborn, R Haspel and I Spooner*
- Holocene palaeoclimate in the northern Sahara margin (Jefara Plain, northwestern Libya) 339  
*Carlo Giraudi, Anna Maria Mercuri and Daniela Esu*
- Lateglacial and Holocene coastal evolution in the Minho estuary (N Portugal): Implications for understanding sea-level changes in Atlantic Iberia 353  
*Eduardo Leorri, Francisco Fatela, Teresa Drago, Sarah Louise Bradley, João Moreno and Alejandro Cearreta*
- Potential bias in 'updating' tree-ring chronologies using regional curve standardisation: Re-processing 1500 years of Torneträsk density and ring-width data 364  
*Thomas M Melvin, Håkan Grudd and Keith R Briffa*
- Holocene palaeoceanographic evolution off West Greenland 374  
*K Perner, M Moros, A Jennings, JM Lloyd and KL Knudsen*
- Lake highstands in the Pensacola Mountains and Shackleton Range 4300–2250 cal. yr BP: Evidence of a warm climate anomaly in the interior of Antarctica 388  
*Dominic A Hodgson and Michael J Bentley*
- The eastern Australian magnetic inclination record: Dating the recent past and re-assessing the historical geomagnetic archive 398  
*SJ Gale, DE Cook and NJ Dorrington*
- Phytolith taphonomy in the middle- to late-Holocene fluvial sediments of Ounjougou (Mali, West Africa) 416  
*Aline Garnier, Katharina Neumann, Barbara Eichhorn and Laurent Lespez*
- The Höfðahólar rock avalanche (sturzström): Chronological constraint of paraglacial landsliding on an Icelandic hillslope 432  
*Denis Mercier, Etienne Cossart, Armelle Decaulne, Thierry Feuillet, Helgi Páll Jónsson and Þorsteinn Sæmundsson*
- Solar forcing of climate during the last millennium recorded in lake sediments from northern Sweden 447  
*U Kokfelt and R Muscheler*
- Archaeological perspectives on the origins of azuki (*Vigna angularis*) 453  
*Gyoung-Ah Lee*
- Mid-Holocene drought and lake-level change at Elk Lake, Clearwater County, Minnesota: Evidence from CHIRP seismic-reflection data 460  
*SM Colman, ET Brown and RA Rush*
- ## Holocene book reviews
- Climate and Culture Change in North America AD 900–1600 466
- Tracking Environmental Change Using Lake Sediments (Volume 5 – Data Handling and Numerical Techniques) 467

Impact factor 2.595
