THE HOLOCENE

an interdisciplinary journal
focusing on recent
environmental change

VOLUME 24, NUMBER 2, 2014

Editor: John A Matthews

Contents

Fast-track reports

Little Ice Age glaciers in Britain: Glacier–climate modelling in the Cairngorm Mountains 135
Stephan Harrison, Ann V Rowan, Neil F Glasser, Jasper Knight, Mitchell A Plummer and Stephanie C Mills

Late-Holocene and Younger Dryas glaciers in the northern Cairngorm Mountains, Scotland 141
Martin Kirkbride, Jez Everest, Doug Benn, Delia Gheorghiu and Alastair Dawson

Research papers

Holocene environmental change in subarctic aeolian dune fields: The chronology of sand dune re-activation events in relation to forest fires, palaeosol development and climatic variations in Finnish Lapland 149
John A Matthews and Matti Seppälä

Long-term mass balance of perennial firn and ice in an Alpine cave (Austria): Constraints from radiocarbon-dated wood fragments 165
Christoph Spötl, Paula J Reimer and Marc Luetscher

High-resolution productivity record and reconstruction of ENSO dynamics during the Holocene in the Eastern Equatorial Pacific using coccolithophores 176
Eloy Cabarcos, Jose-Abel Flores and Francisco J Sierro

Holocene landscape changes and wood use in Patagonia: Plant macroremains from Cerro Casa de Piedra 7 188
Laura Caruso Fermé and Maria Teresa Civalero

Surface air temperature variability reconstructed with tree rings for the Gulf of Alaska over the past 1200 years 198
Gregory C Wiles, Rosanne D D'Arrigo, David Barclay, Rob S Wilson, Stephanie K Jarvis, Lauren Vargo and David Frank

Late-Holocene paleoclimate and treeline fluctuation in Wyoming's Wind River Range, USA 209
Christopher Morgan, Ashley Losey and Lukas Trout

Late-Holocene faunal and landscape change in the Bahamas 220
David W Steadman, Nancy A Albury, Perry Maillis, Jim I Mead, John Slapcinsky, Kenneth L Krysko, Hayley M Singleton and Janet Franklin

Pre-Columbian raised-field agriculture and land use in the Bolivian Amazon 231
Bronwen S Whitney, Ruth Dickau, Francis E Mayle, John H Walker, J Daniel Soto and José Iriarte

From west to east: Environmental influences on the rate and pathways of Polynesian colonization 242
Alvaro Montenegro, Richard T Callaghan and Scott M Fitzpatrick

Holocene book review

Antarctica: Global Science from a Frozen Continent 257
