ON THE COVER

Verifying the code: Daniel Garcia-Doñoro, Luis Emilio Garcia-Castillo, and Sio Weng Ting's article, "Verification Process of Finite-Element Method Code for Electromagnetics," highlights the intricate task of finding discrepancies between simulated and expected results in a computer code, through a closed-loop verification process.

MISSION STATEMENT:

IEEE *Antennas and Propagation Magazine* publishes feature articles and columns that describe engineering activities within its scope, taking place in industry, government, and universities. All feature articles are subject to peer review. Emphasis is placed on providing the reader with a general understanding of either a particular subject or of the technical challenges being addressed by various organizations, as well as their capabilities to cope with these challenges. Review, tutorial, and historical articles are welcome.

General information for contributors: Contributions to *IEEE Antennas and Propagation Magazine* are accepted through ScholarOne Manuscripts at <https://mc.manuscriptcentral.com/apm-ieee>. Contributors are encouraged to contact the magazine editor-in-chief before submitting their articles to inquire whether their prospective submission is within the scope of the magazine. Article formatting requirements vary based on the type of article. The authors are asked to consult http://www.ieee.org/publications_standards/publications/authors/author_submission.html and http://www.ieee.org/publications_standards/publications/authors/authors_journals.html for general instructions. Manuscripts should be in English. The editor-in-chief reserves the right to accept, reject, and/or edit any and all material submitted. Submission of material will be interpreted as assignment and release of copyright and any and all other rights as if the standard IEEE copyright and US Export Control Compliance Forms had been signed by the copyright owner. All material associated with contributions may be discarded after the issue containing the contribution goes to press, unless otherwise requested. The nominal deadline for material not requiring peer review or extensive editing is 120 days prior to the start of the month of publication. Contact the editor-in-chief if you have timely material that cannot

make this deadline. All feature articles are subject to full peer review per IEEE policy. All contributions to departments are reviewed by the associate editor(s) for that department, with additional peer review as deemed necessary by the associate editor.

IEEE Antennas and Propagation Magazine (ISSN1045 9243) is published bimonthly by The Institute of Electrical and Electronics Engineers, Inc. Headquarters: 3 Park Avenue, 17th Floor, New York, NY 10016-5997, U.S.A. +1 212 419 7900. Responsibility for the contents rests upon the authors and not upon the IEEE, the Society, or its members. The magazine is a membership benefit of the IEEE Antennas and Propagation Society, and subscriptions are US\$6.00 per member per year (included in Society fee). Replacement copies for members are available for US\$20 (one copy only). Nonmembers can purchase individual copies for US\$115.00. Nonmember subscription prices are available on request.
