

# IEEE ELECTRON DEVICE LETTERS

A PUBLICATION OF THE IEEE ELECTRON DEVICES SOCIETY

MARCH 2016

VOLUME 37

NUMBER 3

EDLEDZ

(ISSN 0741-3106)

---

## EDITORIAL

Changes to the Editorial Board ..... *T.-J. K. Liu* 241

## LETTERS

### Silicon and Column IV Semiconductor Devices

- Effect of p-Type Buried Layer Dose on Hot Carrier Degradation of  $R_{ON}$  in 700 V Triple RESURF nLDMOS ..... *K. Mao, H. Nie, and Y. Yao* 242
- Negative Capacitance Field Effect Transistor With Hysteresis-Free Sub-60-mV/Decade Switching ..... *J. Jo and C. Shin* 245
- Silicon-Based Floating-Body Synaptic Transistor With Frequency-Dependent Short- and Long-Term Memories ..... *H. Kim, J. Park, M.-W. Kwon, J.-H. Lee, and B.-G. Park* 249
- Gate-First High-Performance Germanium nMOSFET and pMOSFET Using Low Thermal Budget Ion Implantation After Germanidation Technique ..... *W.-H. Chang, H. Ota, and T. Maeda* 253
- Design and Simulation of a Novel Bipolar Digital Logic Technology for a Balanced Performance in 4H-SiC ..... *H. Elgabra, A. Siddiqui, and S. Singh* 257

### Compound Semiconductor Devices

- InAs FinFETs With  $H_{fin} = 20$  nm Fabricated Using a Top-Down Etch Process ..... *R. Oxland, X. Li, S. W. Chang, S. W. Wang, T. Vasen, P. Ramvall, R. Contreras-Guerrero, J. Rojas-Ramirez, M. Holland, G. Doornbos, Y. S. Chang, D. S. Macintyre, S. Thoms, R. Droopad, Y.-C. Yeo, C. H. Diaz, I. G. Thayne, and M. Passlack* 261
- Compatibility of AlN/SiN<sub>x</sub> Passivation With LPCVD-SiN<sub>x</sub> Gate Dielectric in GaN-Based MIS-HEMT ..... *M. Hua, Y. Lu, S. Liu, C. Liu, K. Fu, Y. Cai, B. Zhang, and K. J. Chen* 265
- An Experimental Demonstration of GaN CMOS Technology ..... *R. Chu, Y. Cao, M. Chen, R. Li, and D. Zehnder* 269
- >70% Power-Added-Efficiency Dual-Gate, Cascode GaN HEMTs Without Harmonic Tuning ..... *J. S. Moon, R. Grabar, D. Brown, I. Alvarado-Rodriguez, D. Wong, A. Schmitz, H. Fung, P. Chen, J.-C. Kang, S. Kim, T. Oh, and C. Mcguire* 272

## Memory Devices and Technology

|                                                                                                                                                |                                                                                                                                           |     |
|------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Charge Storage and Variable Temperature Data Retention Characteristics of Nitrided Titanium Oxide Nonvolatile Memory Device .....              | <i>P.-H. Ke, J.-T. Li, G.-T. Hou, and J.-S. Chen</i>                                                                                      | 276 |
| Bulk Oxygen-Ion Storage in Indium-Tin-Oxide Electrode for Improved Performance of HfO <sub>2</sub> -Based Resistive Random Access Memory ..... | <i>P.-H. Chen, K.-C. Chang, T.-C. Chang, T.-M. Tsai, C.-H. Pan, T.-J. Chu, M.-C. Chen, H.-C. Huang, I. Lo, J.-C. Zheng, and S. M. Sze</i> | 280 |
| Studying Trapped Tunneling-Electron Migration Due to Program and Erase Cycles in NAND Flash .....                                              | <i>M. Kang, J. Yang, and I.-J. Chang</i>                                                                                                  | 284 |

## Thin-Film Transistors

|                                                                                                                                                         |                                                                               |     |
|---------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------|-----|
| Flexible Low-Voltage In-Zn-O Homo Junction TFTs With Beeswax Gate Dielectric on Paper Substrates .....                                                  | <i>S. Jiang, P. Feng, Y. Yang, P. Du, Y. Shi, and Q. Wan</i>                  | 287 |
| Lateral Grain Growth of Amorphous Silicon Films With Wide Thickness Range by Blue Laser Annealing and Application to High Performance Poly-Si TFTs .... | <i>S. Jin, Y. Choe, S. Lee, T.-W. Kim, M. Mativenga, and J. Jang</i>          | 291 |
| Electrical Instability of p-Channel SnO Thin-Film Transistors Under Light Illumination .....                                                            | <i>J.-H. Lee, Y.-J. Choi, C.-Y. Jeong, D.-K. Jung, S. Ham, and H.-I. Kwon</i> | 295 |
| Short-Term Plasticity and Synaptic Filtering Emulated in Electrolyte-Gated IGZO Transistors .....                                                       | <i>X. Wan, Y. Yang, P. Feng, Y. Shi, and Q. Wan</i>                           | 299 |
| High-Performance Submicrometer ZnON Thin-Film Transistors With Record Field-Effect Mobility .....                                                       | <i>C.-I. Kuan, H.-C. Lin, P.-W. Li, and T.-Y. Huang</i>                       | 303 |

## Optoelectronics, Display, Imaging

|                                                                                                                   |                                                   |     |
|-------------------------------------------------------------------------------------------------------------------|---------------------------------------------------|-----|
| Improving the Blue Response and Efficiency of Multicrystalline Silicon Solar Cells by Surface Nanotexturing ..... | <i>P. Feng, G. Liu, W. Wu, Y. Shi, and Q. Wan</i> | 306 |
|-------------------------------------------------------------------------------------------------------------------|---------------------------------------------------|-----|

## Solid-State Power and High-Voltage Devices

|                                                                                                                                                    |                                                                                               |     |
|----------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------|-----|
| On the Identification of Buffer Trapping for Bias-Dependent Dynamic $R_{ON}$ of AlGaIn/GaN Schottky Barrier Diode With AlGaIn:C Back Barrier ..... | <i>J. Hu, S. Stoffels, S. Lenci, G. Groeseneken, and S. Decoutere</i>                         | 310 |
| 3.3-kV-Class 4H-SiC MeV-Implanted UMOSFET With Reduced Gate Oxide Field .....                                                                      | <i>S. Harada, Y. Kobayashi, K. Ariyoshi, T. Kojima, J. Senzaki, Y. Tanaka, and H. Okumura</i> | 314 |
| 4H-SiC n-Channel Insulated Gate Bipolar Transistors on (0001) and (000-1) Oriented Free-Standing n <sup>-</sup> Substrates .....                   | <i>S. Chowdhury, C. Hitchcock, Z. Stum, R. Dahal, I. B. Bhat, and T. P. Chow</i>              | 317 |

## Sensors and Actuators

|                                                                                                                   |                                                                                         |     |
|-------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------|-----|
| Influence of Au-Based Metallization on the Phase Velocity of GaN on Si Surface Acoustic Wave Resonators .....     | <i>A. Stefanescu, A. Müller, I. Giangu, A. Dinescu, and G. Konstantinidis</i>           | 321 |
| Design and Simulation of Piezoelectric-Charge-Gated Thin-Film Transistor for Tactile Sensing .....                | <i>W. Li, J. A. Weldon, Y. Huang, and K. Wang</i>                                       | 325 |
| A Broadside-Coupled Meander-Line Resonator in 0.13- $\mu$ m SiGe Technology for Millimeter-Wave Application ..... | <i>S. Chakraborty, Y. Yang, X. Zhu, O. Sevimli, Q. Xue, K. Esselle, and M. Heimlich</i> | 329 |

## Emerging Technologies and Devices

|                                                                                                                         |                                                                                                                     |     |
|-------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------|-----|
| Graphene FET Gigabit ON-OFF Keying Demodulator at 96 GHz .....                                                          | <i>O. Habibpour, Z. S. He, W. Strupinski, N. Rorsman, T. Ciuk, P. Ciepielewski, and H. Zirath</i>                   | 333 |
| Uniform Strain in Heterostructure Tunnel Field-Effect Transistors .....                                                 | <i>D. Verreck, A. S. Verhulst, M. L. Van de Put, B. Sorée, N. Collaert, A. Mocuta, A. Thean, and G. Groeseneken</i> | 337 |
| Electrostrictive Tunable Capacitors and High-Performance 2D Crystal Transistors for Energy-Efficient Applications ..... | <i>R. K. Jana and G. L. Snider</i>                                                                                  | 341 |
| High-Current Tunneling FETs With (110) Orientation and a Channel Heterojunction .....                                   | <i>P. Long, J. Z. Huang, M. Povolotskyi, G. Klimeck, and M. J. W. Rodwell</i>                                       | 345 |

---

|                                                       |  |     |
|-------------------------------------------------------|--|-----|
| IEEE ELECTRON DEVICES SOCIETY MEETINGS CALENDAR ..... |  | 349 |
|-------------------------------------------------------|--|-----|

|                               |  |     |
|-------------------------------|--|-----|
| Information for Authors ..... |  | 351 |
|-------------------------------|--|-----|

## ANNOUNCEMENTS

|                                                             |  |     |
|-------------------------------------------------------------|--|-----|
| Call for Nominations—2016 J.J. Ebers Award .....            |  | 352 |
| Call for Nominations—2016 IEEE EDS Early Career Award ..... |  | 353 |
