

IEEE SOLID-STATE CIRCUITS

MAGAZINE

SPRING 2016 • VOL. 8 • NO. 2

What Memory Wall?

FEATURES

16 The History of Semiconductor Memory

By Dean Klein

23 Memory Interfaces

By Chulwoo Kim, Hyun-Woo Lee, and Junyoung Song

35 Scaling the Next-Generation System Architecture

By Kevin Tran

43 Emerging Memory Technologies

By Shimeng Yu and Pai-Yu Chen

57 Making the Case for Feature-Rich Memory Systems

By Rajeev Balasubramonian

66 Semiconductor Memory Road Map

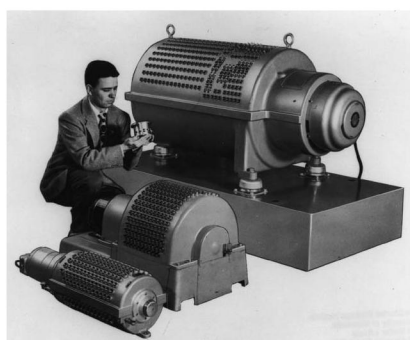

By Jung-Bae Lee

75 A Technical Foundation for RF CMOS Power Amplifiers

By Earl McCune

83 Innovation of Switched-Capacitor Voltage Multiplier

By Toru Tanzawa

ABOUT THIS IMAGE:

Once state of the art, now a museum piece. Find out more in "The History of Semiconductor Memory."
