## REGULAR PAPERS

Predicting Dominance Rankings for Score-Based Games .... <i>S. Samothrakis, D. Perez, S. M. Lucas, and P. Rohlfshagen</i>	1
Solving a Complex Language Game by Using Knowledge-Based Word Associations Discovery .....	
..... <i>P. Basile, M. de Gemmis, P. Lops, and G. Semeraro</i>	13
Extending Real-Time Challenge Balancing to Multiplayer Games: A Study on Eco-Driving .....	
..... <i>H. Prendinger, K. Puntumapon, and M. Madruga</i>	27
Online Adaptable Learning Rates for the Game <i>Connect-4</i> .....	
..... <i>S. Bagheri, M. Thill, P. Koch, and W. Konen</i>	33
Intelligent Game Engine for Rehabilitation (IGER) .....	
..... <i>M. Pirovano, R. Mainetti, G. Baud-Bovy, P. L. Lanzi, and N. A. Borghese</i>	43
Reinforcement Learning in Video Games Using Nearest Neighbor Interpolation and Metric Learning .....	
..... <i>M. S. Emigh, E. G. Kriminger, A. J. Brockmeier, J. C. Príncipe, and P. M. Pardalos</i>	56
Discovering Multimodal Behavior in <i>Ms. Pac-Man</i> Through Evolution of Modular Neural Networks .....	
..... <i>J. Schrum and R. Miikkulainen</i>	67

---

## SHORT PAPERS

Prolog-Scripted Tactics Negotiation and Coordinated Team Actions for <i>Counter-Strike</i> Game Bots .....	<i>G. Jaśkiewicz</i>	82
Predicting Opponent's Production in Real-Time Strategy Games With Answer Set Programming .....		
..... <i>M. Stanescu and M. Čertický</i>		89
How to Run a Successful Game-Based AI Competition .....	<i>J. Togelius</i>	95

---
