The 10-20 International system seen from left (A) and above the head (B), as seen in "On the Permanence of EEG Signals for Biometric Recognition," by E. Maiorana, *et al.*, p. 163. The letters F, T, C, P, and O stand for frontal, temporal, central, parietal, and occipital lobes. Even numbers identify electrodes on the right hemisphere, odd numbers those on the left hemisphere, and "z" (zero) refers to electrodes placed on the midline. (Jaakko Malmivuo and Robert Plonsey, *Bioelectromagnetism*, Oxford University Press, 1995, WEB version.)
