

# IEEE TRANSACTIONS ON **NUCLEAR SCIENCE**

A PUBLICATION OF THE IEEE NUCLEAR AND PLASMA SCIENCES SOCIETY

OCTOBER 2016

VOLUME 63

NUMBER 5

IETNAE

(ISSN 0018-9499)

PART I OF TWO PARTS

**4th CONFERENCE ON PET/MR AND SPECT/MR, Elba Island, Italy, May 17–20, 2015  
NUCLEAR MEDICAL AND IMAGING SCIENCES (NMIS)**

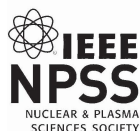

---

*See Part I, p. 2417, for 4th Conference on PET/MR and SPECT/MR Table of Contents. 4th Conference on PET/MR and SPECT/MR papers begin on p. 2419. Nuclear Medical and Imaging Sciences (NMIS) papers begin on p. 2496. See Part II, front cover, for Regular Papers Table of Contents. Regular Papers begin on p. 2610.*

|                                                                                                                                                                                                                         |      |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| MR Performance Comparison of a PET/MR System Before and After SiPM-Based Time-of-Flight PET Detector Insertion .....                                                                                                    | 2419 |
| First Results From a High-Resolution Small Animal SiPM PET Insert for PET/MR Imaging at 7T .....                                                                                                                        |      |
| ..... A. L. Goertzen, G. Stortz, J. D. Thiessen, D. Bishop, M. S. Khan, P. Kozłowski, F. Retière, G. Schellenberg, E. Shams, V. Sossi, and C. J. Thompson                                                               | 2424 |
| Iterative Structural and Functional Synergistic Resolution Recovery (iSFS-RR) Applied to PET-MR Images in Epilepsy .....                                                                                                |      |
| J. Silva-Rodríguez, J. Cortés, X. Rodríguez-Orsorio, J. López-Urdaneta, J. Pardo-Montero, P. Aguiar, and C. Tsoumpas                                                                                                    | 2434 |
| MR-Consistent Simultaneous Reconstruction of Attenuation and Activity for Non-TOF PET/MR .....                                                                                                                          |      |
| T. Heußer, C. M. Rank, M. T. Freitag, A. Dimitrakopoulou-Strauss, H.-P. Schlemmer, T. Beyer, and M. Kachelrieß                                                                                                          | 2443 |
| Tissue Probability-Based Attenuation Correction for Brain PET/MR by Using SPM8 .....                                                                                                                                    |      |
| ..... J. Teuho, J. Linden, J. Johansson, J. Tuisku, T. Tuokkola, and M. Teräs                                                                                                                                           | 2452 |
| Improved Parameter-Estimation With MRI-Constrained PET Kinetic Modeling: A Simulation Study .....                                                                                                                       |      |
| ..... K. Erlandsson, M. Liljeroth, D. Atkinson, S. Arridge, S. Ourselin, and B. F. Hutton                                                                                                                               | 2464 |
| A PET Design Based on SiPM and Monolithic LYSO Crystals: Performance Evaluation .....                                                                                                                                   |      |
| ..... A. J. González, A. Aguilar, P. Conde, L. Hernández, L. Moliner, L. F. Vidal, F. Sánchez, S. Sánchez, C. Correcher, C. Molinos, J. Barberá, K. Lankes, S. Junge, T. Bruckbauer, P. Bruyndonckx, and J. M. Benlloch | 2471 |
| The Performance of Silicon Photomultipliers in Cherenkov TOF PET .....                                                                                                                                                  |      |
| ..... R. Dolenec, S. Korpar, P. Križan, R. Pestotnik, and N. Verdel                                                                                                                                                     | 2478 |
| Pilot Studies With BGO Scintillators Coupled to Low-Noise, Large-Area, SiPM Arrays .....                                                                                                                                |      |
| ..... A. J. González, F. Sánchez, S. Majewski, P. Parkhurst, K. Vaigneur, and J. M. Benlloch                                                                                                                            | 2482 |
| A Novel Method for $\gamma$ -photons Depth-of-Interaction Detection in Monolithic Scintillation Crystals .....                                                                                                          |      |
| ..... R. Pani, M. Bettiol, E. Preziosi, C. Borrazzo, R. Pellegrini, A. J. González, P. Conde, M. N. Cinti, A. Fabbri, E. Di Castro, and S. Majewski                                                                     | 2487 |
