IEEE TRANSACTIONS ON PLASMA SCIENCE

A PUBLICATION OF THE IEEE NUCLEAR AND PLASMA SCIENCES SOCIETY

JANUARY 2014

VOLUME 42

NUMBER 1

ITPSBD

(ISSN 0093-3813)

REGULAR PAPERS

Basic Processes in Fully and Partially Ionized Plasmas

Static Spiral Patterns in a Dielectric Barrier Discharge *L. Dong, W. Liu, Y. Wang, and X. Zhang* 2

Microwave Generation and Microwave-Plasma Interaction

A 1-kW 32–34-GHz Folded Waveguide Traveling Wave Tube
..... *H. Gong, J. Xu, T. Tang, Y. Wei, Y. Gong, C. Zhang, X. Su, S. Cai, G. Wu, and J. Feng* 8

Multiple Scattering by Parallel Plasma Cylinders *X.-P. Wu, J.-M. Shi, and J.-C. Wan* 13

High-Intensity Discharge Lamps With High Color Rendering Indices Based on Molecular Radiation of Indium Iodide
..... *C. Kaiser, M. Katona, C. M. Ögün, R. Kling, and W. Heering* 20

Simple Correctors for Elimination of High-Order Modes in Corrugated Waveguide Transmission Lines
..... *E. J. Kowalski, M. A. Shapiro, and R. J. Temkin* 29

RF Priming for Operation of Relativistic TWT With Reflections Near Cyclotron Resonance
..... *M. I. Fuks, E. Schamiloglu, and Y.-D. Li* 38

Radiation Enhancement of a Relativistic Backward-Wave Oscillator Driven by Two Annular Electron Beams
..... *W. Liu, Z. Yang, Y. Wang, P. Liu, and C. Zhao* 42

A Novel Phase Shifter for Ku-Band High-Power Microwave Applications *Y.-M. Yang, C.-W. Yuan, and B.-L. Qian* 51

Study of the Slow-Wave Properties of a Rectangular Groove-Loaded Folded Waveguide for Millimeter Traveling-Wave
Tubes *J. He and Y. Wei* 55

Long Plasma Column With a Non-Coaxial Dielectric Rod Irradiated by an Electromagnetic Wave
..... *B. Jazi, S. Golharani, and E. Heidari-Semiromi* 62

Research on Eigenvalue and Ohmic Loss of Coaxial Resonator With Inner–Outer Corrugation
..... *S. Hou, S. Yu, H. Li, and Q. Zhao* 73

Development of a C-Band 2.5-MW Peak Power Broadband Klystron Based on High Efficiency
..... *Z. Qu, Z. Zhang, J. Fan, R. Zhang, and P. Liu* 79

Charged Particle Beams and Sources

Simulation of Electron Hop Funnels Using Version 9.2 of Lorentz-2E *T. Rowe, M. Pearlman, and J. Browning* 84

Particle-in-Cell Simulation and Optimization of Multigap Extended Output Cavity for a W-Band Sheet-Beam
EIK *S. Chen, C. Ruan, W. Yong, C. Zhang, D. Zhao, X. Yang, and S. Wang* 91

High Energy Density Plasmas and Their Interactions

The Effect of Specific Heat Ratio on Neutron Yield
..... *S. H. Saw, P. L. Chong, R. S. Rawat, L. C. Tan, P. Lee, A. Talebitaher, and S. Lee* 99

(Contents Continued on Page 1)

Industrial, Commercial, and Medical Applications of Plasmas

Energy Consumption Analysis and OH Radical Detection of NO Conversion Process from Flue Gas Using Pulsed Corona Discharge L. Zhao, Z.-Y. Luo, J.-P. Jiang, D. Zhou, X. Gao, and K.-F. Cen 105

Plasma Diagnostics

Arc Energy and Temperature During Its Propagation Over Ice-Covered Surfaces A. Nekahi, S. Farokhi, M. Farzaneh, and B. G. Stewart 114

Pulsed Power Science and Technology

Simulation of Corona Discharge Process in Multistage Gas Switches Using VORPAL Y. Li, L. Liu, P. Cong, H. Wang, and C. Liu 120

Design of a Subnanosecond Rise Time, Variable Pulse Duration, Variable Amplitude, Repetitive, High-Voltage Pulse Source T. Huiskamp, S. J. Voeten, E. J. M. van Heesch, and A. J. M. Pemen 127

Electrical Behavior of an Ultralow-Energy Plasma-Focus Device M. O. Barbaglia, H. Bruzzone, H. N. Acuña, L. Soto, and A. Clausse 138

Optimizing the Secondary Coil of a Tesla Transformer to Improve Spectral Purity R. M. Craven, I. R. Smith, and B. M. Novac 143

An LC Generator Based on Accurate Synchronization Controlling of Multisecondary Windings Saturable Pulse Transformer X. Fan and J. Liu 149

Effects of High Frequency on the Distributed Parameters of the Sparse-Wound Solenoid Coils B. Lu and X. Yang 154

Optimization of a Triggered Vacuum Switch With Multirod Electrodes System Y. Wang, L. Dai, F. Lin, and X. Yao 162

Arcs & MHD

Evaluation of a Novel Plasma Launcher Behavior Using Magneto Hydro Dynamic Modeling-Coupled Time Varying Electron Energy Distribution Function D. Azizi and M. R. A. Pahlavani 168

CFD Analysis of Arc-Flow Interaction in a High-Voltage Gas Circuit Breaker Using an Overset Method J. H. Park, K. H. Kim, C. H. Yeo, and H. K. Kim 175

The Combined Influence of Contact Gap and Axial Magnetic Field on the Expansion Speed of Cathode Spots in High-Current Triggered Vacuum Arc Z. Shi, X. Song, C. Wang, S. Jia, C. Liu, and L. Wang 185

Space Plasmas

Effects of Ultraviolet Irradiation and Atomic Oxygen Erosion on Total Electron Emission Yield of Polyimide J. Wu, A. Miyahara, A. R. Khan, M. Iwata, K. Toyoda, M. Cho, and X. Q. Zheng 191

Other Topics in Plasma Science

Erosion of Thermionic Cathodes in Welding and Plasma Arc Cutting Systems (Review Paper) V. Nemchinsky 199

Demonstration of a Novel Pulsed Electric Field Technique Generating Neither Conduction Currents Nor Joule Effects B. M. Novac, F. A. Banakhr, I. R. Smith, L. Pécastaing, R. Ruscassié, A. S. de Ferron, and P. Pignolet 216

About Formation of Secondary Current Pulses in Dielectric Barrier Discharges in Xe-Cl₂ Mixtures S. V. Avtaeva 229

2-D Electromagnetic and Fluid Models for Inductively Coupled Plasma for RF Ion Thruster Performance Evaluation E. Turkoz and M. Celik 235

Special Issue-Selected Papers from EAPPC/BEAMS 2012

Compact Rep-Rate GW Pulsed Generator Based on Forming Line With Built-In High-Coupling Transformer Z. Zhang, J. Zhang, B. Qian, C. Liu, T. Xun, H. Zhang, and B. Liang 241

Release of Iron Ions from the Stainless Steel Anode Occurring During High-Voltage Pulses and Its Consequences for Cell Electroporation Technology R. Rodaitė-Riševičienė, R. Saulė, V. Snitka, and G. Saulis 249

Special Issue - Spacecraft Charging Technology 2013

In Situ Surface Voltage Measurements of Dielectrics Under Electron Beam Irradiation J. L. Hodges, J. R. Dennison, J. Dekany, G. Wilson, A. Evans, and A. M. Sim 255

Ultrahigh Vacuum Cryostat System for Extended Low-Temperature Space Environment Testing J. Dekany, R. H. Johnson, G. Wilson, A. Evans, and J. R. Dennison 266

Low-Temperature Cathodoluminescence in Disordered SiO₂ A. Evans, J. R. Dennison, G. Wilson, and J. Dekany 272

ANNOUNCEMENTS

Call for Papers—Special Issue on Plasma Assisted Technologies 278

Call for Papers—APSPT-8 279

Call for Papers—Special Issue on Z-Pinch Plasmas 281
