

Review Paper

Income inequality in the 21st century — A biased summary of Piketty's capital in the twenty-first century

Dietrich Stauffer

1630001

Research Papers

Lane-changing behavior and its effect on energy dissipation using full velocity difference model

Jian Wang, Jian-Xun Ding, Qin Shi, Reinhart D. Kühne

1650013

Wave packet dynamics of an atomic ion in a Paul trap: Approximations and stability

A. Hashemloo, C. M. Dion, G. Rahali

1650014

Quantum transport with long-range steps on Watts–Strogatz networks

Yan Wang, Xin-Jian Xu

1650015

The inactive–active phase transition in the noisy additive (exclusive-or) probabilistic cellular automaton

J. Ricardo G. Mendonça

1650016

Three-band decomposition analysis in multiscale FSI models of abdominal aortic aneurysms

Maria G. C. Nestola, Alessio Gizzi, Christian Cherubini, Simonetta Filippi

1650017

A two-lane cellular automaton traffic flow model with the influence of driver, vehicle and road

Han-Tao Zhao, Cen Nie, Jing-Ru Li, Yu-Ao Wei

1650018

Power spectra of totally asymmetric exclusion processes on lattices with a junction

Dong-Xiang Wang, Rui Jiang, Mao-Bin Hu, Qing-Song Wu

1650019

Network growth with preferential attachment and without “rich get richer” mechanism

A. Lachgar, A. Achahbar

1650020

Fermionic networks: Modeling adaptive complex networks with fermionic gases

Marco Alberto Javarone

1650021

Exploiting MIC architectures for the simulation of channeling of charged particles in crystals

Enrico Bagli, Vadim Karpusenko

1650022

Simulation study of satisfaction rate in the mixed traffic flow with open boundary conditions

Khalid Bentaleb, Nouredine Lakouari, Hamid Ez-Zahraouy, Abdelilah Benyoussef

1650023
