Reviews

Scenario for the renormalization in the 4D Yang–Mills theory

L. D. Faddeev

1630001

Maximally supersymmetric Yang–Mills theory: The story of *N* = 4 Yang–Mills theory

Lars Brink

1630002

Generalization of the Yang–Mills theory

G. Savvidy

1630003

Research Papers

Real weights, bound states and duality orbits

Alessio Marrani, Fabio Riccioni, Luca Romano

1550218

Pati–Salam unification from noncommutative geometry and the TeV-scale W_R boson

Ufuk Aydemir, Djordje Minic, Chen Sun, Tatsu Takeuchi

1550223

Some three-point correlation functions in the η-deformed $AdS_5 \times S_5$

Plamen Bozhilov

1550224

Non-Abelian BFFT embedding, Schrödinger quantization and the field–antifield anomaly of the $O(N)$ nonlinear sigma model

E. M. C. de Abreu, J. Ananias Neto, A. C. R. Mendes, G. Oliveira-Neto

1550225
