Quantum mechanical reality according to Copenhagen 2.0

Allan M. Din

1630014

Disformal scalars as dark matter candidates — Branon phenomenology

Jose A. R. Cembranos, Antonio L. Maroto

1630015

Constraints on the $\omega\pi$ form factor from analyticity and unitarity

B. Ananthanarayan, Irinel Caprini, Bastian Kubis

1630020

Research Papers

Simple brane-world inflationary models — An update

Nobuchika Okada, Satomi Okada

1650078

Analysis of the $B_{\infty} \rightarrow K\bar{K}^*K^{\pm}$ decay

Amin Asadi, Hossein Mehraban

1650079

Regular black holes and noncommutative geometry inspired fuzzy sources

Shinpei Kobayashi

1650080

Annihilation of the scalar pair into a photon in a de Sitter universe

Mihaela-Andreea Băloi

1650081

Filling the gaps between model predictions and their prerequisites in electric dipole moments

Takeshi Fukuyama, Koichiro Asahi

1650082

Interference effect on resonance studies in searches of heavy particles

Ligong Bian, Da Liu, Jing Shu, Yongchao Zhang

1650083

Holographic entanglement entropy in insulator/superconductor transitions with dark matter sector

Yan Peng, Lu Chen, Guohua Liu

1650085
