

9 articles in this issue

Explosive Growth of Large-Scale Magnetic Fluctuations due to Particle Scattering on Developed Small-Scale Weibel Turbulence in a Magnetoactive Plasma

ASTROPHYSICS, SPACE PHYSICS, COSMOLOGY, AND GRAVITY | Open access | 04 September 2025 | Pages: 71 - 78

Superluminescence During the Filamentation of 950-nm Femtosecond Laser Pulses in Carbon Dioxide

OPTICS AND LASER PHYSICS | Open access | 04 September 2025 | Pages: 79 - 84

Proton Transfer in Water

CONDENSED MATTER | 04 September 2025 | Pages: 85 - 91

Nuclear Magnetic Resonance Evidence for a Pseudogap in a Pb-Doped Bi:2201 Single Crystal

CONDENSED MATTER | Open access | 15 July 2025 | Pages: 92 - 96

Strain-Induced Local Nucleation of Magnetic Domains in Iron Garnet Film

CONDENSED MATTER | Open access | 04 September 2025 | Pages: 97 - 102

Frequency Dependence of the Proton Conductivity of Ice and Water

CONDENSED MATTER | 04 September 2025 | Pages: 103 - 109

Thermal Stability of Spin Defects in a 6H-SiC Crystal According to Photoluminescence and Electron Paramagnetic Resonance Data

CONDENSED MATTER | 04 September 2025 | Pages: 110 - 115

Estimation of the Intergranular Transparency of Diffusive Superconducting Films from the Shape of the Density of States of the Abrikosov Vortex

CONDENSED MATTER | Open access | 15 July 2025 | Pages: 116 - 120

Comparison of Spiral Waves in Simplified Cardiac Tissue Models

BIOPHYSICS | Open access | 15 July 2025 | Pages: 121 - 131
