10 articles in this issue

## Ultra-High Energy Event KM3-230213A as a Cosmogenic Neutrino in Light of Minimal UHECR Flux Models

M. Yu. Kuznetsov, N. A. Petrov & Y. S. Savchenko

ASTROPHYSICS, SPACE PHYSICS, COSMOLOGY, AND GRAVITY | Open access | 24 February 2026 | Pages: 287 – 297

## Reconstruction of Photon Statistics in the Presence of Photodetection Noise

A. S. Chirkin

OPTICS AND LASER PHYSICS | Open access | 09 April 2026 | Pages: 298 – 302

## Features of the Decay of Rabi Oscillations in a Semiconductor During a Superradiant Phase Transition

P. P. Vasil'ev

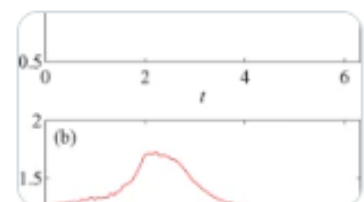

OPTICS AND LASER PHYSICS | Open access | 09 April 2026 | Pages: 303 – 309

## Drift Towards Isotropization during the 3D Hydrodynamic Turbulence Onset

D. S. Agafontsev, A. S. Il'yn & A. V. Kopyev

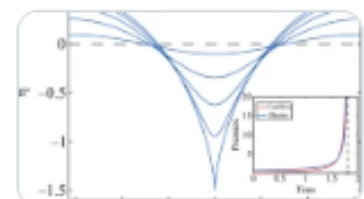

PLASMA, HYDRO- AND GAS DYNAMICS | 24 February 2026 | Pages: 310 – 316

## Development of Strongly Nonlinear Structures at the Charged Boundary of a Non-Conducting Liquid in an Electric Field

N. M. Zubarev & E. A. Kochurin

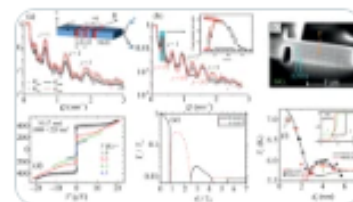

PLASMA, HYDRO- AND GAS DYNAMICS | 24 February 2026 | Pages: 317 – 323

## The Physics of Superconductor–Ferromagnet Hybrid Structures (Brief Review)

A. A. Golubov, S. V. Bakurskiy ... A. S. Sidorenko

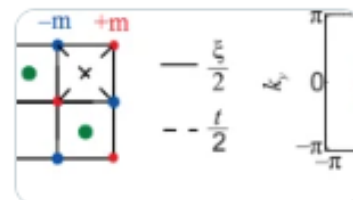

CONDENSED MATTER | 24 February 2026 | Pages: 324 – 340

## Anomalous Hall Effect in Metallic Collinear Antiferromagnets

V. P. Golubinskii & V. A. Zyuzin

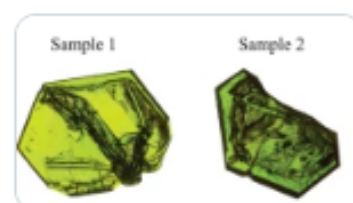

CONDENSED MATTER | Open access | 24 February 2026 | Pages: 341 – 349

## Magnetic Properties and the Effect of Exchange Bias of the Hysteresis Loop in Iron Borate Single Crystals Doped with Cobalt Ions

N. I. Snegirev, A. V. Bogach ... I. S. Lyubutin

CONDENSED MATTER | Open access | 09 April 2026 | Pages: 350 – 358

## Free Fock Parafermions in the Tight-Binding Model with Dissipation

A. S. Mastiukova, D. V. Kurlov ... A. K. Fedorov

METHODS OF PHYSICAL RESEARCH | Open access | 24 February 2026 | Pages: 359 – 366

## VLS Grating for X-Ray Optics as Fabricated by e-Beam Nanolithography with Optically Confirmed Exponential Line-Density Variation

A. I. Arzhanov, V. V. Shulga ... A. V. Naumov

METHODS OF PHYSICAL RESEARCH | Open access | 24 February 2026 | Pages: 367 – 373
