

Vacuum Ultraviolet Generation in Improved Nonlinear Photonic Crystal Structure of α -Strontium Tetraborate

R. G. Bikbaev, D. Pykhtin ... A. S. Aleksandrovsky

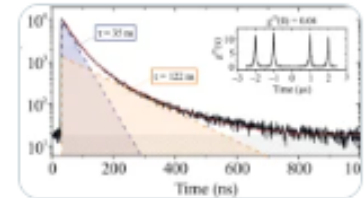

METHODS OF PHYSICAL RESEARCH | Open access | 10 March 2026 | Pages: 409 – 413

Delayed Photoluminescence Blinking of Single Semiconductor Quantum Dots: Novel Experiments and Modeling

M. A. Kniazeva, A. O. Tarasevich ... I. Yu. Eremchev

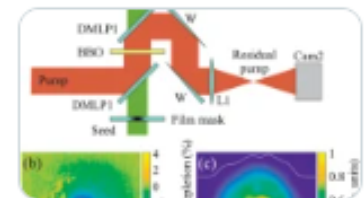

METHODS OF PHYSICAL RESEARCH | 10 March 2026 | Pages: 414 – 421

Spatial Profiling of Femtosecond Pulses in an Optical Parametric Amplification System

E. A. Stepanov, R. M. Aliev ... A. B. Fedotov

METHODS OF PHYSICAL RESEARCH | Open access | 04 May 2026 | Pages: 422 – 428

Comment on “Suppression of the Low-Temperature Increase in the Van der Waals Force by the Anomalous Skin Effect” (JETP Letters 122, 805 (2025))

G. V. Dedkov

DISCUSSION | 04 May 2026 | Pages: 429 – 430

Reply to the Comment on “Suppression of the Low-Temperature Increase in the Van der Waals Force by the Anomalous Skin Effect” (JETP Letters 122, 805 (2025))

S. Sh. Rekhviashvili

DISCUSSION | 04 May 2026 | Pages: 431 – 432
