
9 articles in this issue

Non-Additivity of the Contributions of Individual Sections of the Modulating Sequence to the Multiplexed Signal in Hadamard Transform Ion Mobility Spectrometry

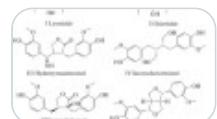

OriginalPaper | 22 December 2025 | Pages: 2149 - 2158

Classification of Tea Using Atmospheric Pressure Laser Plasma Ionization Mass Spectrometry

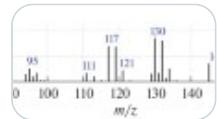

OriginalPaper | 22 December 2025 | Pages: 2159 - 2165

Rapid Determination of Lignans in Plant Raw Materials by Liquid Chromatography–Tandem Mass Spectrometry

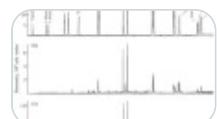

OriginalPaper | 22 December 2025 | Pages: 2166 - 2174

Possibilities and Limitations of Gas Chromatography–Mass Spectrometric Identification of Products of Free Radical Chlorination of Cyclic Ethers at the Lack of Reference Information

OriginalPaper | 22 December 2025 | Pages: 2175 - 2190

Search and Determination of Polycyclic Aromatic Hydrocarbons in Atmospheric Aerosols of the Arctic Urban Agglomeration by Gas Chromatography–High-Resolution Mass Spectrometry

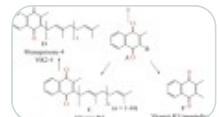

OriginalPaper | 22 December 2025 | Pages: 2191 - 2199

Positive and Negative Ion Mass Spectra and Stability of Some Nitro-Rich Aromatic Compounds

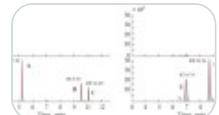

OriginalPaper | 22 December 2025 | Pages: 2200 - 2209

Mass Spectrometric Characteristics of Vitamins K Using Atmospheric Pressure Chemical Ionization

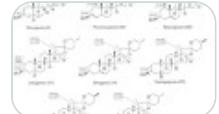

OriginalPaper | 22 December 2025 | Pages: 2210 - 2214

Detection and Identification of Immunoglobulin A Nephropathy Biomarkers in Urine by Liquid Chromatography–High-Resolution Mass Spectrometry

OriginalPaper | 22 December 2025 | Pages: 2215 - 2220

Determination of Steroidal Saponins by Comprehensive 2D Liquid Chromatography–Tandem Mass Spectrometry

OriginalPaper | 22 December 2025 | Pages: 2221 - 2228
