Sorbent Materials for the Preconcentration of Platinum-Group Metals

REVIEWS | 23 September 2025 | Pages: 1493 - 1507

Methods of the Investigation and Chemical Analysis of Microplastics and the Determination of Associated Compounds

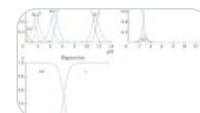

REVIEWS | 23 September 2025 | Pages: 1508 - 1531

Optimization of Sample Preparation Methods to Improve the Efficiency of Nanoparticle Extraction from Environmental Samples

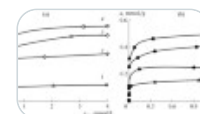

ARTICLES | 23 September 2025 | Pages: 1532 - 1542

Determination of Papaverine as Ion Pairs with Anionic Azo Dyes through Solid-Phase Extraction Using Polyurethane Foam

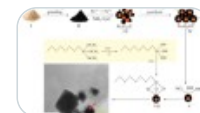

ARTICLES | 23 September 2025 | Pages: 1543 - 1551

Effect of Concentration of Chemically Attached Mercaptopropyl Groups on the Silica Surface on the Sorption-Photometric Determination of Palladium(II) and Silver(I) as Their Complexes with Attached Groups and Dithizone

ARTICLES | 23 September 2025 | Pages: 1552 - 1560

Determination of Endocrine Disruptors in Bottom Sediments by Gas Chromatography–Mass Spectrometry with Analyte Preconcentration by Liquid–Liquid and Magnetic Dispersive Solid-Phase Extraction

ARTICLES | 23 September 2025 | Pages: 1561 - 1574

Detection of Melittin, a Characteristic Peptide of Bee Venom, in Semisolid Dosage Forms Using Liquid Chromatography–High-Resolution Mass Spectrometry

ARTICLES | 23 September 2025 | Pages: 1575 - 1581

Determination of Antibiotics in Wastewaters Using Amperometric Sensors

ARTICLES | 23 September 2025 | Pages: 1582 - 1587

Overview of Flow Injection, Chemiluminescence, and Spectrophotometric Methods for the Determination of Vitamin A

REVIEWS | 23 September 2025 | Pages: 1588 - 1605

Quality Assessment of Methodological Aspects in Microplastics Studies on Processed Food

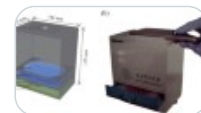

REVIEWS | 23 September 2025 | Pages: 1606 - 1627

Innovative Dual-Technique Approach to Levofloxacin Assay: Spectrophotometric Chelation and Microfluidic Paper-Based System for Enhanced Pharmaceutical Quality Control

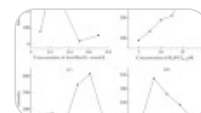

ARTICLES | 23 September 2025 | Pages: 1628 - 1638

Evaluation of a Smartphone-Based Protein-to-Creatinine Ratio Assay for Detecting Kidney Disease Progression

ARTICLES | 23 September 2025 | Pages: 1639 - 1646

Preparation of Platinum Nanoclusters Using Acid Red G as a Stabilizer and Detection of Tetracycline

ARTICLES | 23 September 2025 | Pages: 1647 - 1655
